BETTER DECISIONS**

The real-time access to documents, structured data, and unstructured data (like video and social media) are filtered to provide a comprehensive view of the case.

Giving workers the control and insight they need to work faster and more efficiently.

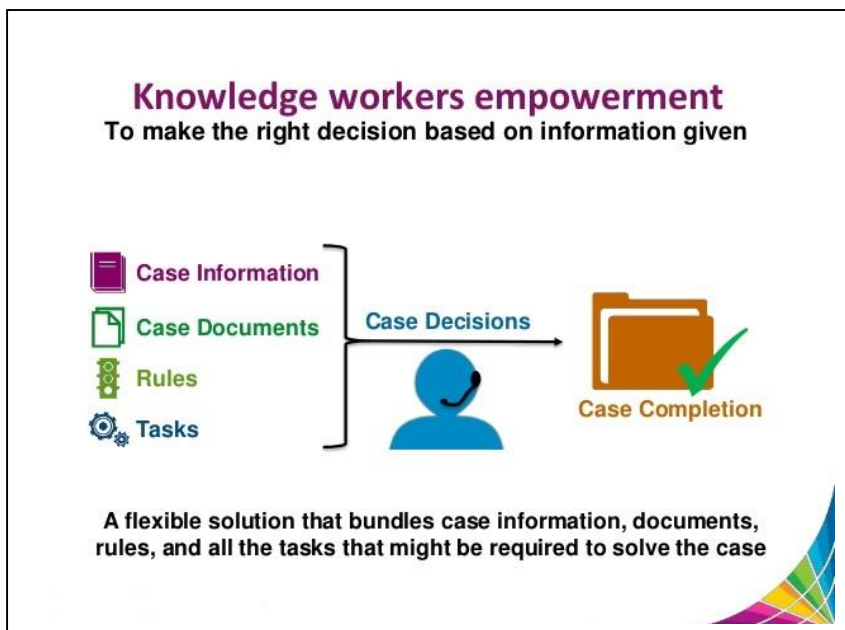

A single interface design tightly integrates with Capture, Analytics, Governance, Mobile Connectivity, Cloud Deployments and more.

Fairfax Data Systems can create an easy-to-use Case Management Solution tailored to your needs and specifications, cutting down the processing steps dramatically.

SAVING DOCUMENTS IN A RESPOSITORY IS NO LONGER ENOUGH.

AUTOMATE YOUR PROCESS BY LEVERAGING METADATA, CONTENT AND WORKFLOW.

Business Outcomes with **CASE MANAGER**:

- ✓ **Consistency**
Configure the business process once and never worry about manually enforcing or checking the process. Easily modify, add or delete steps in the process through an intuitive interface.
- ✓ **Real Time Reporting**
Identify bottlenecks in the workplace with real time reporting on cases and tasks.
- ✓ **Accountability**
Review cases by individual, department or branch to identify areas for improvement. Hold all users to the same standard by reporting on cases or individual tasks.
