

Normally, I wouldn't have gone on a trip like this because of some excuse, but now that I have, it has reminded me of the importance of family and togetherness. I have always appreciated what my parents have done for me, but I took it for granted. After seeing the orphans so happy even without parents and not too many possessions, it felt like I should really be more thankful for what I have. I wish could show my appreciation to my parents and the orphans by helping them in any way that I can so they would know that I do care about them. I truly appreciate Apprentice Education for making this trip possible. This trip wouldn't have been so fun and enjoyable without everyone here helping each other out and having a good time. I would have never expected this trip to be this

great! I really appreciate what you've done for me, so I would like to thank you and everyone else very much for this fantastic experience that I never thought would be possible!
