

Goodwin & Associates
Dental Practice

Mr Peter O'Donnell
Clinical Dental Technician

Peter studied at the world leading Denturism program in Toronto, Canada and was one of the first to become qualified in the UK. This qualification focuses on denture making from impression taking, bite registration, try-in and fitting of the finished product. This means that your dentures will be handled solely by Peter from start to finish.

Peter holds clinics here at the practice, giving patients the benefit of a denture expert and their dentist under one roof.

Peter also has his own clinic and lab in Seaton, Workington.
