## PressureCareReliefProducts®

**THE LATEST AND EASIEST SOLUTION TO  
ELIMINATE THE RISK OF PRESSURE SORES.**

The new, simple, and cost effective way to prevent and cure pressure sores, offering 24-hour protection in a bed as well as in a chair using the proper PCRP® pad. The thousands of polyester fibers in each layer combine to the natural body contours in both supine and seated positions thereby offering pressure relief. Furthermore, air permeability test concludes that an average of 170 cubic centimeters of air can flow through every square centimeter of surface area proving this simple product is high effective in keeping the user cool thus the findings by Dr. Steve Young in the Clinical Evaluation stating all patients noted they were much cooler and slept better on a PressureCareReliefProducts® over and above a product which uses pumped air.

### BENEFITS:

- \* Assisted in the healing Stage 2, 3 & 4 Open Wounds within 4 weeks during clinical trials.
- \* A recent clinical study on 6 cases (*Clinical Evaluation available upon request*) showed improved blood flow maintaining healthy tissue.
- \* Proven to reduce users body temperature and has a cooling effect over and above other surfaces.
- \* No pumps, no electricity nor power needed, no adjustments required.
- \* Breathable, lightweight and hardwearing, *Worldwide Patent Pending 3D Spacer Fabric* made in Quebec, Canada.  
The internal polyester fibers works in such a way to achieve minimal shearing. Machine washed at 80C degrees and it can also be bleached to avoid cross infections.
- \* Products resistant to abrasion.
- \* Easily transportable (e.g. 2-layer pad foldable to 40cm x 25cm x 10cm, weighing 900g).

### WHAT KIND OF COMPLICATIONS CAN BE CAUSED BY PRESSURE SORES?

- \* Can be life threatening.
- \* Infection can spread to the blood, heart, bones.
- \* Amputations.
- \* Prolonged bed rest.
- \* Autonomic dysreflexia

**DISCLAIMER** considering individual circumstances may be appropriate for the use of these products standard medical care must be followed at all times. These products are not intended to replace any procedures or guidelines in place for pressure wounds. For additional protection whilst seated, we recommend that the pad is always placed on a foam based chair (e.g. recliner, sofa, etc...).

**WARRANTY** this product is guaranteed to be free from defects in materials and workmanship under normal use for a period of two years.

Due to personal hygiene reasons and to avoid cross infection being passed from one person to another, we regret, we are not able to
