

## **M2MD Technologies Announces President and CTO Chuck Link To Be Inducted into TU-Automotive Hall of Fame**

*Selected for inaugural class in recognition of contributions to the connected car industry through the years.*

**ATLANTA, April 25, 2016** – M2MD Technologies, Inc. (“M2MD”), a leader in security and connectivity solutions optimized for the cellular industry, today announces that its President and CTO, Chuck Link, is among the first inductees into the TU-Automotive Hall of Fame for 2016. The inductees were announced on April 22, 2016 and will be inducted at the TU-Automotive Awards Ceremony on June 7, 2016.

“Chuck’s vision, long-term commitment and passion has helped shape the fabric of the connected vehicle industry. His work has broken down barriers and created groundbreaking products and pushed the automotive sector from a traditional industry to a leading segment of the fast-moving IoT industry. TU-Automotive is proud to present Chuck as a member of the Hall of Fame 2016 class,” said Emilie LeBlanc, Awards Director of TU-Automotive.

Mr. Link was recognized for his innovative thinking and leadership as a co-founder of Hughes Telematics, now known as Verizon Telematics. While at Hughes Telematics, Mr. Link was Chief Technology Officer responsible for the foundation of vehicle connectivity, network architecture and assisting the automakers with their telematics strategy. Mr. Link is now serving as the President and Chief Technology Officer for M2MD which is focused on securely connecting machines to mobile devices. Along with security, M2MD’s solutions include a communication gateway optimized for cellular IoT that reduces communication costs and enhances user experience through faster connectivity.

“I am honored to be included in this inaugural Hall of Fame class with fellow inductees who have made tremendous industry contributions. The automotive industry is experiencing significant innovation through technology, and I am excited to remain a significant contributor to the future progress of the connected vehicle,” said Mr. Link.

**About M2MD TECHNOLOGIES, INC.**

M2MD Technologies, Inc. ([www.m2mdtech.com](http://www.m2mdtech.com)) is building solutions optimized for cellular IoT that provide stronger security, reduced costs, enhanced user experience and ultimately generates higher returns for stakeholders. Centered on a core platform of security offerings, the company develops and manages various solutions that accelerate connections to the vehicles, allow consumers to leverage their shared data plan and ultimately simplify the customer experience. The company is headquartered in Atlanta, GA.
