### **Colby Development, LLC Announces the addition of Evelyn Mathews as Business Development Manager.**

(Buffalo, NY – September 27, 2018) – Joseph R. Stanek, Managing Broker of Colby Development, LLC. is pleased to announce that Evelyn Mathews is joining the company in the position of Business Development Manager of the full-service commercial Real Estate Development Company headquartered in Buffalo, New York.

Evelyn has been exercising her experience since 2013 as a vivacious residential real estate professional. Her commitment to commercial development, sales and brokerage began soon after working with small business owners looking within the city limits of Buffalo, specifically the east side and west side. She has an extensive client base that buy investment properties within the city; many of those clients are graduating from small residential investments, to commercial properties and larger multifamily properties and apartment buildings. Thus, her desire to make the move to Colby Development.

Evelyn is a dedicated mom, a no-nonsense full-time career woman with a passionate dedication to her career path. She is very proud of being a mom while obtaining not only her AAS, her BBA and her WNY Real Estate Sales Person License as well as continuing education and being a fully present and vibrant mother while she obtained these degrees. The life balance she achieves is amazing. We appreciate that immensely!

Evelyn is our go-to girl when everything is on the move. She has the dexterity, and the flexibility to make things happen. Another WIN for the Colby Development Team.

END
