

INTRODUCTION

As the creator of mindSHIFT360, a high-impact program helping high-achieving entrepreneurs break through ceilings, limiting beliefs, and comfort zones so that they can soar to greater heights, our speaker today will help you expand your focus in business from just the bottom line to leaving a lasting legacy.

With 3 decades of personal experience as an entrepreneur and industry leader, he has amassed an arsenal of wisdom for every stage of the game.

Now, he successfully coaches professionals struggling with stagnation in their careers and businesses. With his videos, courses, and coaching he has helped thousands of people overcome extreme mind control from traumatic childhood experiences to being liberating from religious cults.

Whether he is speaking at a high school, university or Fortune500 company, he is able to inspire rising stars as well as re-inspire those who may find themselves adrift in life or in business to align their self-belief with their level of potential.

Please help me welcome award-winning speaker, and former host of iHeart Radio's show "It's All Good," Mr. Rodney Allgood!
