# Despite heat and humidity, residents cast it all aside to start park beautification at Sandspur

This month, 22 members of the Pompano Beach Highlands Civic Improvement Association, met at Sandspur Park on Northeast 15 Avenue, to beautify their neighborhood park. Sandspur Park lost most of its shade trees during the Hurricane Wilma, and the association felt that this little park could benefit from some TLC. With donations from the city, county and a local garden center, native trees were planted along with flowering shrubs and butterfly attracting plants.
