SmartCon Solutions
Energy Management – Automation – Building Technology

Temperature, Lighting, Voice & Tablet Room Controls

A World Class Alliance; SmartCon and our Solution Partners. Together, we connect property with performance.

Through our partner collaborations, we provide attractive designs, precision functionality and realized revenue savings for your guest room HVAC, lighting control and amenity integrations. We present the hospitality industry with a seamless solution to occupancy based room control management.

Axxess Full Glass Light

Let your guests feel comfortable with the beautiful customized Touchpad of the Axxess Lighting and Guestroom Control System.

Axxess Privacy & Service Switches

A simple way for guests to communicate with staff from the comfort of their room. Don't want to be disturbed or need your room cleaned? Simply, touch a button.

Axxess Lamp Dimmer Plus

The touch user interface allows for convenient lamp control right from the bedside or your favorite reading chair. 4 programmable buttons allow for additional control from the same touch interface. It integrates seamlessly into your home automation projects and comes in several colors to suit your decor. Available in Black, White and Silver

Axxess Exterior Corridor Doorbell & Signage

Custom hotel signage in a wide variety of colors, finishes and styles. On the sign, the LED indicators show whether the room is ready to be cleaned or if the guest wants to avoid disturbance. Additionally, a "Do Not Disturb" status silences the doorbell automatically.

Axxess HotDash Software

HotDash was developed in order to help hoteliers manage their rooms`status. Staff can now be managed more efficiently and housekeeping requests can be dealt with as quick as they appear. Goals can be set, measured and achieved.
