Dutch Soccer Academy believes in creating a fun and exciting soccer atmosphere for children to play and learn. We teach soccer by creating game situations and empowering our students to make good soccer decisions. DSA's curriculum incorporates the most current European player development techniques along with a rich history of proven training methods. Register today for a camp near you!

Background: *DSA is a Maine based company with over 18 years of experience in developing players and building championship teams in a variety of communities. Leading our coaching team are directors, Robbie Krul of the Netherlands and Maine native, Tammy Krul. DSA camps are tailored to meet the needs of Maine soccer players and designed to develop each student's skill foundation and give them the knowledge they need to continue developing throughout the year. The effective curriculum is based on the cognitive soccer development needs of various ages and skill levels. Regardless if your child is a beginner or an advanced player, our experienced coaching team will maximize your child's potential and improve their knowledge of the world's most popular game. DSA players will gain the skills and knowledge they need to play with confidence and excel in their soccer league throughout the year.*

Summer Artscapes: Take Flight! with Kathie Gass

Monday through Friday, June 26 to 30, 8:30 a.m. to 12:30 p.m. at the Gamble Education Center

Cost: \$240; \$200 members (Scholarships available, please inquire.)

Ages 8 to 12 years old.

Come take flight with us! Young artists are invited for a week of making bird-inspired artworks. We will look at the work of artists, dancers, and scientists, who are inspired by our avian friends—as we create sculpture, paintings, and prints. We'll be informed by nature studies, walk-throughs of the museum's galleries, and a trip to the nearby Project Puffin Audubon Center. On the final day, there will be a group show to share with families.

Summer Art Camp: Magical Landscapes & Ocean Sculpture with Avis Turner

Monday through Friday, July 24 to 28, 9 a.m. to noon at the Gamble Education Center

Cost: \$180; \$150 members (Scholarships available, please inquire.)

For children 8-12 years of age

Using the museum's summer exhibitions, children are invited to create personal, imaginative mixed-media landscapes inspired by artist Marguerite Zorach. We will work on fine paper with oil pastel, use rich printed papers and exotic fabrics. We will also create tiny wooden, seaside found-object boxes based on the work by sculptor Louise Nevelson and discuss design elements such as visual balance, symmetry, and directional movement. We will compare these two artists' work—one based in New York and who lived in Maine and the other who was from Rockland and rose to international fame. We will visit the museum for conversation and sketching, and keep a portfolio of projects to bring home at the end of the week.

JOIN US AT SUMMER CAMP!

Come spend a week with us this summer discovering the different coastal habitats of Maine! Roll up your sleeves and explore the rocky shore, salt marshes, mudflats, and more. Look under rocks for sea stars, dig in the muck for clams, and wade into the water to net small fish.

Experience a different habitat every day by visiting incredible field sites for hands-on ocean exploration guided by our experienced and talented staff. Collect what you find to take it back to the lab for closer inspection. Learn even more about coastal habitats by designing and building aquariums to mimic the real thing. But that is not all: activities, experiments, art projects, games, the list goes on!

SPECIAL DAYS

On Thursday we hop on a boat and travel a few miles offshore to visit Allen Island! This beautiful private island has many of the marine habitats discussed throughout the week and is just waiting to be explored.*

Friday, the last day of camp, you be the expert! We will spend the morning preparing interactive exhibits, then invite families and community members to join us as you explain all of your findings from a week of marine science discovery.

**Session 1 of camp will visit Allen Island on Friday July 14. Mini sessions will not travel to Allen Island.*

Weeks Offered: Multiple dates offered – 9 day courses

Cost: \$2295

Financial aid offered? Yes

Hurricane Island Outward Bound offers backpacking, canoeing and sailing adventures for middle school students. Our nine-day journeys are an opportunity for young teens seeking a fresh challenge in a unique wilderness environment and an intense team setting.

Middle school students will build confidence by working on an “I can do it” attitude; gain an identity by realizing the strengths they have in taking responsibility; and know they belong to their crew. Students will build a strong team as they attain specific daily goals; each team member has a specific leadership role, ensuring all contribute to the group's success. They will leave course knowing “we did it together!” Students will learn the meaning of being “crew, not passengers” as they exhibit and practice compassion toward each other and the environment.

HURRICANE ISLAND CENTER FOR SCIENCE AND LEADERSHIP

The Hurricane Island Center for Science and Leadership provides extraordinary opportunities to discover what it takes to make a difference in the world - as students, scientists, citizens, and leaders! Sitting 12 miles off the coast of Rockland, ME, this beautiful off-the-grid community is an ideal setting for middle and high school programs in science, sustainability, and leadership. Our hands-on 1-2 week summer programs invite students to immerse themselves in the natural world, challenging them to explore and ask questions like trained naturalists in marine and terrestrial ecosystems. Programs are small (with a maximum of 12 students) and are led by trained field scientists and educators, providing a level of instructor expertise and maturity you won't find in other summer experiences. No day is complete without hiking, swimming, sailing, or rock climbing. Come participate in our field science and leadership programs and make memories and friendships that last a lifetime!

Three Summer Workshops involving choreography, dance movement, theater, and art projects.

Choreography workshop for approximate ages 10 to 13 will be held daily from 9:30am to 1:00pm Monday, June 26 through Friday, June 30. This workshop, suited to dancers with different levels of dance/theater experience, is intended for those interested in Choreography. The workshop will give each participant the opportunity to develop a movement vocabulary. Dance and theater techniques, improvisation, art projects and poetry are part of our daily work. We explore movement manipulation, repetition, transition, timing, and unison and non-unison movement. As we experiment with elements of dance, choreography, and critique, we learn how to expand upon our own discoveries while listening and learning from each other. On Friday, June 30 at 12:30, we will cap the week with an informal sharing for families and friends. Tuition is \$265.00.

3-day Creative Movement & Art workshop held daily from Monday, July 10 through Wednesday, July 12. Approximate ages 4 & 5, from 9:00am to 11:00am.

5-day Creative Movement & Art workshops held daily from Monday, July 10 through Friday, July 14. Approximate ages 6 to 8, from 12:00pm to 2:00pm.

The workshops focus on exploring movement with the added dimension of art projects. Through creative movement and art, children explore their own movement vocabulary and become aware of other children's innate movement, different from their own. We focus on expression of feelings and tackling movement problems. At times the art involvement precedes a movement experience, other times the movement stimulates our exploration of an art activity. The interdisciplinary approach to movement and art helps children connect with elements common to many art forms, such as shapes, spaces, patterns, rhythms and textures. Tuition for the 3 day is \$80. Tuition for the 5 day is \$125.00.

The Lincolnville Boat Club runs a summer youth program that holds classes Monday thru Friday. Students sail on the warm waters of Norton Pond in Lincolnville, using Vanguard 420s, Optimists, and Lasers, all of which are ideal for safe learning and advancing sailing capabilities. Students also have the opportunity to swim and learn to kayak and row! Even if the weather doesn't cooperate, we use our beautiful clubhouse for indoor learning. We offer two types of youth programming. Our partial day courses are catered towards learning specific sailing skills. Our full day courses are open to all students (no sailing ability requirement), who will have the opportunity to spend all day exploring the pond and ocean with us.

Age group: French teens stay with host families
Weeks Offered: June 24-July 14, July 14-August 4
Cost: No cost for families to participate

Financial aid offered? Yes

Are you interested in having an addition to your family for three weeks this summer? Have you ever been interested in a cultural exchange program but thought a commitment of one year was too long? The Maine-French Exchange program may be the perfect fit for you and your family. Aaron and Angela Gilbert have been given the opportunity to direct a program in which young people from France can visit the United States and gain a better understanding of the American culture. There are two groups of teens coming this year. The first group will arrive on June 24th and return to France on July 14th. The second group of students will arrive July 14th and return to France on August 4th.

We are seeking host families who are willing to give one of these inquiring young French teenagers a peek into your unique, American way of life. These young people are coming to America to experience your lifestyle, and to enhance their English skills.

There are two programs available. The first is Full Immersion. This teen comes to your home and becomes a part of your family. They help with normal household duties and simply enjoy the wonderful Maine days of summer doing whatever it is your family normally does. Take them along when you go shopping, to the beach, or on a special outing with your immediate family. The second program is Family Helper. These are older, i.e. 16-19 year old teens. They will help you with your children while you mow the lawn, paint the back porch, or get caught up on all those household duties, etc. Many families with little ones have found this extra set of hands and eyes a welcome relief during the long days of summer.

The teens are interviewed in France by our French exchange agency and must meet high character qualifications. Each French candidate completes a two-page comprehensive profile, with photo, which describes them, their interests, family size, likes and dislikes. You are given the opportunity to review these profiles and select the young person who matches your family's interests. You can be specific! You can choose a boy or girl, and the age you prefer. All teens arrive with pocket money and are fully medically insured. The only expectation from a family is that your new French friend will find love and acceptance in your home.

Age Group: 12 years and up

Hours: Part day

Weeks Offered: May through November, see website

Cost: Price depends on program chosen

Financial aid offered? Yes

Megunticook Rowing Junior program serves youth rowers between the ages of 13-18 in the Midcoast region. Based out of Megunticook Lake which is nestled in the Camden Hills, Megunticook Rowing provides a fun rowing program and introduction to a team sport that encourages and emphasizes good sportsmanship and individual responsibility. Team members are encouraged to achieve personal as well as team goals. Through regularly scheduled practices, Megunticook Rowing will improve the physical fitness of our youth through training and goal setting. No experience is necessary to be a part of Megunticook Rowing. We are a co-ed program, but the boys and girls compete separately. The Megunticook Rowing coaching staff are former competitive college rowers with a long history of coaching athletes to achieve at the highest levels. The coaches will work to instill and enhance the athlete's self esteem, self-discipline, team reliance and personal fitness through a rigorous 5 or 6 day a week training program. Rowing is the ultimate team sport and our program will teach valuable skills of teamwork, dedication, accountability, sportsmanship, athleticism, motivation, confidence, perseverance, goal setting, time management, and the rewards of hard work. Part of our mission is to make rowing available to all who would like to row. Private sculling lessons can be scheduled outside of regular class times; there is an additional cost.

A key facet of rowing that is often overlooked is the position of Coxswain. These are the folks who steer, give commands, keep the crew "pumped," and are basically "in charge" of the crew. It is a very important job! If you are small (female or male), want to join an amazing sport, and like the idea of taking command, we need you! Coxing is an excellent way to learn rowing technique while you wait for your growth spurt to kick in!

Financial aid is available for qualified students. A Financial Aid Application is available to download on our website and should be submitted with your registration forms. All requests will be held in total confidence.

Midcoast Actors' Studio is currently accepting registrations for its 2017 youth summer musical theater camps, which will be held July 10-22 in Belfast. A junior and senior camp will be offered.

The junior camp is for ages 7-13 and will run one week only, July 10-14, from 9:00 a.m. to 3:00 p.m. The campers will learn the building blocks of musical theater, as well as improv games, theater warm-ups, swimming and more. There will be a showcase to family and friends on the last day of camp. The price is \$125.

The senior camp is for ages 13-17 and will run two weeks, July 10-22, also from 9:00-3:00. This camp will rehearse RENT: School Edition. There will be a mid-camp sleepover, and ending with 3 performances open to the public. The cost is \$250.

The camp is run by Midcoast Actors' Studio Artistic Director and Troy Howard Middle School theater teacher Jason Bannister. "We had over 50 campers last summer with our production of Annie jr.," says Bannister. "It was so successful that we decided to split into two camps and offer the appropriate programming to the age groups." Bannister is very excited about directing RENT: School Edition with high schoolers. Working alongside Bannister is returning assistant director Sarah Berry and music teacher Anna-Marlies Hunter.

Disney's Aladdin KIDS (July 17 - 21 for ages 8 - 12)

One week, one fantastic production!

Most musical productions take two months to rehearse before opening night. At our musical theater camp, we will produce one fantastic show in a whirlwind of just 5 days. Campers will have a chance to perform through singing, acting and dancing; participate in costume, make-up and set design workshops, and be a vital member of the entire creative ensemble.

Directed by Kim Murphy (Choral and Musical Director at Camden Hills Regional High School), Joani Mitchell (Professional Pianist, co-founder of Ordinary Rabbits' Music Theater Workshops), and Carolyn Brown (Visual Artist and Camden Hills teacher), campers will be fully immersed in the theatrical world for one creative, exciting, and entertaining week.

Broadway Revue (July 24 - 28 for ages 12 - 15) This camp will focus on individual and ensemble theatrical skills: scene writing, improv, character development, music lessons, audition skills, theatrical make-up, and dance.

The week will culminate with a public performance.

Cost: \$120 – ½ day, \$240 – full day

Financial aid offered? Yes

ABOUT THE CAMP

Toddy Pond Farm camp offers children and young adults ages 4-11 the opportunity to experience hands on farming on a sustainable family farm. Through work with the animals, gardening, and nature exploration our time together will emphasize the connection between healthy pastures, healthy animals, healthy food, and a healthy planet.

Participants will start the day in morning circle gathering together to make a plan for the day. From there we'll head out for our morning "farm walk" a daily check-in with all the animals to make sure everyone is happy and healthy. Since all of the animals are on pasture for the summer this can be quite a tour! Some of the chores include bringing feed and fresh water to the pigs and piglets that run in a large section of lower pasture and woodland. We'll gather fresh grown greens for the dairy cows (who love a treat from the garden after milking) and sweep out the barn; replenish the minerals and water for the sheep and lambs, visit the chickens and pigs, and more!

Following check-ins with the animals we'll break for a snack before jumping into our project time. Children will have the choice of working on several short projects throughout the week such as wool felting, crafts, ice cream making, or honey extracting, or delving into a larger week long collaborative project which may include small construction projects, or working on a large farm mural.

Campers will have lunch together followed by quiet time/free play, nature journaling, reading or games. Each afternoon we'll head out to the vegetable garden for seasonal work there--whether it's planting seeds, squashing potato bugs, picking berries or harvesting

veggies for the farm stand it's sure to be fun (and dirty) work! Of course we'll make time to wash and eat some of our harvest for a healthy afternoon snack.

Then, a bit more fun and games in the shade, a hike up Hustus Hill, or exploring the streams and edges of Toddy Pond for pond life, before we head out for an afternoon farm walk to check the animals once more.

We'll end each week by inviting parents to join us on our afternoon farm walk to meet the animals, experience the farm, and then retire to the shade for a picnic from the garden and homemade ice cream!

THE FARM AND FACILITATORS

Toddy Pond Farm is a diversified family farm in Monroe, Maine. The farm's 500+ acres of fields, woods, and waterfront rest at the end of a quiet dirt road overlooking Toddy Pond. The farm is run by Heide and Greg Purinton-Brown and their sons, Guthrie and Oliver.

Jasmine Fowler (Heide's sister) co-directs and runs Toddy Pond Farm Camp. Jasmine holds a BA in Early Childhood Education from UNH and is mom to three homeschooled children. Jasmine and her kids have been helping on the farm for years. Her enthusiasm for experiential education coupled with a passion for sustainable food systems sets the stage for a rich, and rewarding experience for each child.

Travel for Teens is a wonderful teen travel program providing a "fulfilling and genuine traveler experience. We stay at centrally located, locally owned hotels so you don't waste any valuable time commuting between where you stay and what you want to do, also ensuring that you feel fully immersed in your destination. We discover what it means to live like a local in each place we visit. We know that most of our travelers will embark on independent journeys of their own once they leave high school and we want them to be confident, prepared, and safe for when that time comes." Booking your trip using this promo code: RoseyH saves you \$100. Don't miss out!

For 35 years, the University of Maine Cooperative Extension has offered exciting youth summer programs at forested Tanglewood along the Ducktrap River in Lincolnville and coastal Blueberry Cove in Tenants Harbor. Our Camps offer programming that inspires people to reach their full potential by mastering skills and building self-confidence through quality education and having fun with friends.

Residential campers (ages 8-14) shape their experience and gain independence through activity choice (STEM, archery, boating, gardening, watershed and marine ecology, creative arts, drama, wilderness adventures and primitive skills), eating delicious home-cooked meals, and in wicked evening programs.

Day camps for 4-11 year olds nurture a child's natural sense of wonder and imagination and are specially developed for younger campers, emphasizing natural exploration through creative play and hands-on adventures.

Adventure Trips increase campers' confidence in the outdoors as they learn practical camping skills while exploring Maine's beautiful woods and waterways through backpacking, island camping, canoeing, and natural history exploration for youth aged 9-17.

Teen Leadership builds conscious young adults, through teamwork, problem solving, community stewardship, and teaches canoeing and backpacking for ages 14-17.

There's an adventure to be had for campers of any age at Tanglewood and Blueberry Cove. Tanglewood and Blueberry Cove offer school programs year-round as well as facility rentals. Tanglewood's 14 miles of forest trails for hiking, skiing, snowshoeing, fishing and bird watching deep in Camden Hills State Park in Lincolnville are open to the public for explorations year-round.
