Minister of Environment and Climate Change, House of Commons Ottawa ON K1A 0A6

Petition to Change the Proposed Location for the new Waterton Lakes National Park Visitor Reception Centre

We, the undersigned concerned citizens, oppose the proposed location for the new Waterton Lakes National Park Visitor Reception Centre in the green space next to the playground along Windflower Avenue. We see the need for a new Visitor Reception Centre and are in favour of one, just not in the proposed location of the green space. We call for genuine public consultation and thorough review on the proposed location of the Visitor Reception Centre.
