

CAP & TRADE COMPLIANCE

Comply to the regulation in a cost-effective way!

A holistic approach to carbon management

The Carbon Consult Group offers a holistic approach to Cap & Trade obligations in Ontario by taking into account all carbon market -related issues. CCG has several years of expertise on regulated carbon market worldwide, including Quebec and California.

Registration obligation

For mandatory participants to Cap & Trade, registration must be completed by **November 30th, 2016**, otherwise they might face serious penalties.

Registration is not straight forward, and requires your full attention and dedication.

CCG has a team of professionals with experience in registration, ready to help! By the end of the process, CCG guarantees that your organization will be properly registered and ready for the next step.

Cap & Trade compliance strategy

CCG provides your organization with a Cap & Trade compliance strategy using cost-optimization techniques.

By reviewing your current approach and make use of best practices, CCG delivers a solution which leads to cost reductions.

CCG applies market trend forecasting analysis techniques while assessing future risks and opportunities for your organization. This allows us to streamline your carbon management strategy rapidly and efficiently.

Three distinct service pillars

- ⇒ Analysis and review
- ⇒ Carbon compliance strategy design
- ⇒ Carbon compliance plan management

Many benefits for your organization

- ⇒ Avoid legal risks and penalties
- ⇒ Minimize cost of compliance
- ⇒ Save time and resources

For a painless and cost-effective compliance, contact CCG!
