From the President's Desk

Gee whiz these months are flying by!

I truly hope that by now you are all seeing improvements in your plants since we last met.

I think with the magnesium and calcium supplements we are using our orchids are continuing to look better. Of course the weather has a lot to do with this as well! We have several plants in bloom now as I am sure you do also. We should have a good "show and tell" at this meeting.

Glen has a great program planned for us so let's all get our blooming beauties ready and have a good showing Thursday night. See you there!

Bev

Don't forget to send me pictures of your orchids or favorite article for our website and newsletter.

Remember Show and Tell.

Bring your blooming orchids to show us and tell us of your accomplishments.

Program for October meeting

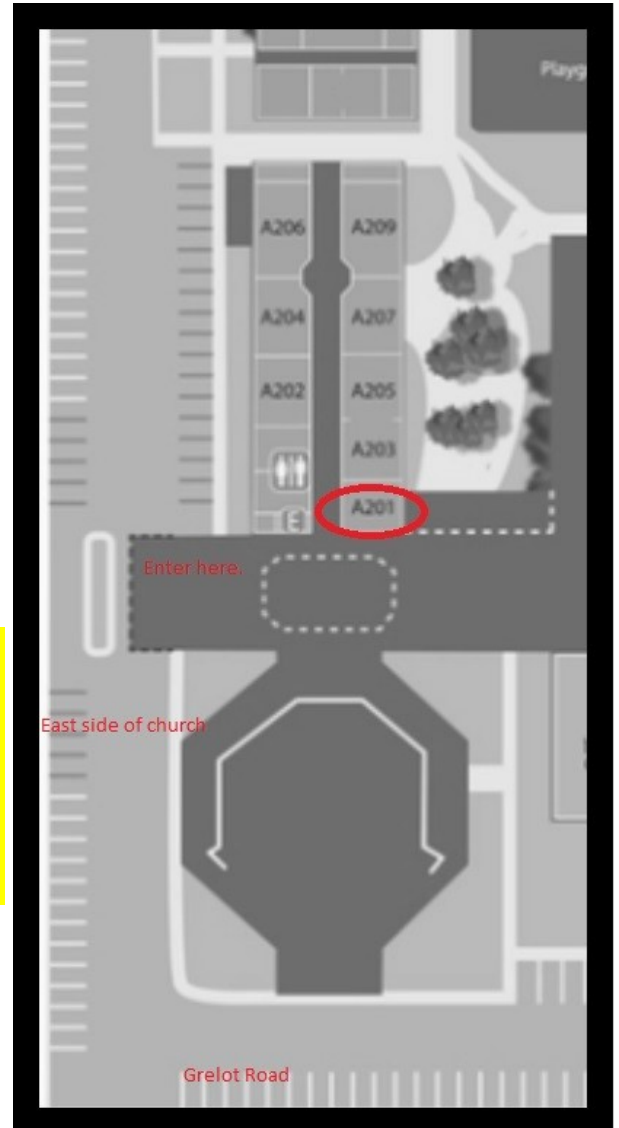

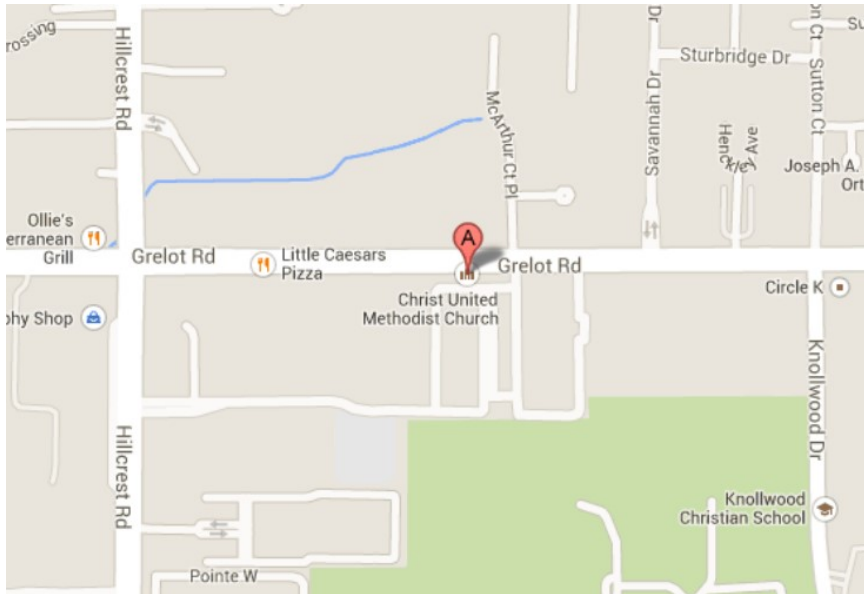

Spag, Bark, or custom mix we all have choices to make!

For the October meeting Glen has chosen potting mixes. Knowing the properties of the many potting components can greatly improve your chances of choosing the right combinations for optimum performance of your orchid plants.

Be sure to bring pen and paper for note taking.

Christ United Methodist Church map

Room A201 directly behind the Sanctuary. You may be able to enter the building at the end opposite the Sanctuary. This is where Beverly and I entered last time we were here in room A204.
