This and That

The Pensacola Orchid Society has asked if someone from our society could come and do a program for them at their meeting on the first Tuesday of November. They say, "Feel free to talk about a particular type of orchid, pesticide use, fertilization, basics of growing orchids, etc". If November is not a possibility, then January or February would work, too. If one of you could do a program for them, come on Thursday with some general information about the program you could present so we can make them that offer. Be sure to plan some great visuals and a handout. We still need to contact them to be sure the length program they are asking for.
