

## Pre-Build Decision Sheet

**BUDGET** – This is the most important factor for both of us. We do offer Pay-as-we-build plans but in order to keep your build in our busy schedule we must have money on hand to proceed. We can provide more info on the Pay-As-We-Build plans as we move through the process. For know you should have a dollar number you are comfortable with and a max number you don't want to go over, so as we do the estimate process, we know what is possible and what is not. Chaos Guitars makes every effort to stay within the budget planned from the beginning of the build provided no changes are no made mid build.
