

MEET WITH YOUR MP

We must all see our MPs urgently. This specifically applies to those Conservative MP's who do not support us. If they have the facts they can make an informed decision and vote in our support.

If you are unable to see your MP then please email/write to them. Tell them:-

- * how the changes to the state pension age have affected you
- * how much money you have been denied by not being in receipt of your state pension
- * what you do want
- * what you don't want i.e. means tested benefits.

YOU can make a difference simply by speaking with/contacting your MP. If you don't tell them then who will?

Our evidence to the Pension Select Committee (link on website) and the 'Counters when meeting your MP'(link on website) will give you the confidence to counter any 'party line' responses or lack of knowledge.

WASPI advises that you make it absolutely clear that we agree with equalisation. What we don't agree with is the way it was implemented. Read about our Freedom of Information request (link on website) that proves we were not written to re the 1995 Act until 14 to 18 years after the 1995 Act, depending upon your DOB.

Also, please specifically ask your MP if there is another debate will they vote in favour of our campaign aims? The more of their constituents who tell them about how the changes to their SPA have affected them, the better.

Only WE can change things. Tell your MP the facts.

The document below contains information to take to your MP.
