

THE WASPI CAMPAIGN

Since our announcement on the Friday 27th July there appears to be some confusion as to the future of the WASPI Campaign. We hope this will clarify matters.

The WASPI Campaign had already been established for more than a year before the company was formed and will continue regardless. Although we are no longer involved with the company Women Against State Pension Inequality Ltd. we can and will continue as the WASPI Campaign. It will go from strength to strength.

In relation to the AGM, this and all future company responsibilities, lie with the people who claim to be Directors, currently listed on the Companies House register. Nominations are open until the 3rd August. Please email your nominations to waspihr@gmail.com You must include your membership number and the seconder must also use the same procedure.

In relation to the WASPI Campaign, please rest assured that:-

- We will continue to work on our policy document with John McDonnell and the Labour Party Policy Team.
- We will continue to lobby and work with MPs from all parties.
- We will continue to encourage women to complete their claims of maladministration with the DWP/ICE/PO.
- We will continue to work with the media to achieve wider coverage and raise public awareness.
- We will continue with plans to hold a national rally in London in the Autumn & will invite other pension groups to join us.
- We will continue to utilise our website/social media pages and YouTube to grow the campaign and disseminate important news and information.
- We will continue to develop effective strategic development of the campaign
- We will continue to develop the Local Group Network and work with our Co-ordinators around the UK and beyond.
- We will continue to work with the Operational Team, who have been active since February, to develop a structure that will benefit the Waspi Campaign.
- We will actively seek to involve local group Co-ordinators (and their group members) in shaping the future of the campaign, by listening to your ideas and harnessing the vast wealth of skills, experience and energy of them all.

To summarise:- The Waspi Campaign will continue to grow and flourish. We will focus our energy on getting a solution for 1950's women. We have seen great results over the past 5 months and there's a lot in the pipeline. With your continuing support we can achieve so much more. We are NOT going away!
