Polish Art Foundation Newsletter *Edition July 2015*

This year begun quietly, apart from a fundraising event held in Rowville in April, seemingly not much was happening.

However behind the scenes all our time and effort has gone into the preparation for our two big artistic events of this year.

The **VIII International Drawing Biennale**, and the **National Polish Arts Festival, PolArt 2015**.

Both events consume our energy to the limit as each is demanding artistically, logistically and technically.

In relation to time frames, the **International Biennale** will be held between **7th and 13th October** of this year at the **Victorian Artists Society Gallery** in Melbourne, and **PolArt** is scheduled to begin on **27 December 2015** and close on 3 January 2016. This will be the 40th anniversary for the festival!

As a reminder to artists wishing to participate in the drawing competition, closing dates are near, and checking our website for details is highly advisable.

## **ARTIST PROFILE – Irenka Glac**

### **Did you study art?**

No, I graduated from the Wroclaw Politechnik, and originally worked as an engineer, in industrial design. Then I worked as a teacher upon arriving in Australia. I had a science background, but I always had an interest in the arts. I had a passion for painting, sculpture but more as an observer rather than a practitioner.

### **How did your ceramics adventure begin?**

My interest in ceramics began as a hobby. After a while I began to learn new techniques and materials. I also met increasingly more practitioners and my fascination grew. This led to more studies. I completed a Diploma of Art in Ceramics at Holmesglen TAFE.

The art of ceramics is fascinating as most forms besides being objects that can be admired can also be fully utilised in our everyday lives. Each piece is an entire project, requiring design and actual production from a single piece of clay. The end result is often surprising and unexpected. Ceramic objects are also very tactile, as surfaces can be rough or smooth.

### **What inspires you? And what materials do you use?**

My work is inspired by nature and the world that surrounds me. Rocks, stones, the ocean and its fauna and flora, the range of colours and shades of white. I like to use ceramic clay, as it allows me to create light, smooth and translucent objects. I use various methods dependent on the desired effect.

### **How has your association with the Polish Art Foundation allowed you to showcase your work?**

I value my collaboration with the foundation, as it allowed me to participate in a number of exhibitions such as the 30X30 exhibition, 3D Perspective and a Group of 8. I have also participated in the PolArt Festival exhibition program in 1997.
