“We believe the ultimate goal of life is to be a complete freedom from all discord of every nature and that this goal is sure to be attained by all.” Dr. Ernest Holmes

Personal Vision: to be instrumental in raising individual/group consciousness to the level of harmony and love by assisting in the creation of a World that Works for Everyone through the teaching and practice of Universal-Spiritual Laws and Principles.

Personal Mission: to assist people on a personal/individual/group basis in developing their own spiritual consciousness through spiritual counseling, teaching universal - spiritual laws/principles, and showing them how to use these spiritual laws and principles to improve their daily lives.

Background—I began my spiritual journey as a child when I questioned the validity of a God of Love in contrast to a God of Vengeance and Retaliation as taught in the Bible. My questioning led me into exploring different religions that my parents and other family members and friends questioned and did not approve of. As part of my journey, I married into and practiced Islam for over 20 years. When I became dissatisfied with my Muslim community, I began again to look for a spiritual community that I felt was closer to practicing the actual beliefs and principles that it espoused. This search brought me to the Centers for Spiritual Living, which teaches spiritual laws, universal principles, and alignment practices by which you can live the life of your dreams.
