

LAPTOP SECURITY

Tips to protect your laptop — and the valuable info on it.

OnGuardOnline.gov

— Treat it like cash

— Password-protect it

Keep passwords somewhere else

Consider an alarm or security cable

Don't leave it
in the car or
"for just a sec"

Pay attention:

- in hotels — use the in-room safe
- at airports, especially at security

Consider carrying it
in something
other than a
laptop case
