

MedStar classes are conducted by EMS professionals with significant clinical and educational experience to provide our students with the information and skills necessary to provide immediate and temporary care during emergency situations.

Classroom Instruction & Skills Competency

We offer a large variety of additional courses as a training center for the American Health & Safety Institute. Certifications in these courses are routinely scheduled or we can set up classes for your group at your location. *Group rates can also be established. Call to schedule your class.*

HS: First Aid	4	\$25	\$25
HS: CPR/AED/First Aid	4	\$55	\$45
Hands Only CPR	2	\$20	\$20

NREMT

In order for EMT's to maintain their National Registry Certification (NREMT) they must recertify every two years. This is very important in case you move out of state or deploy out of the area. Most states have some form of reciprocity if you possess a current NREMT certificate. Letting it lapse can be costly, time consuming, and delay the ability to work. MSTI can review your refresher requirements and conduct your required clinical skills. Affiliate through us today and avoid unnecessary time and money.

- ✓ Document/CE Review, Refresher submission to NREMT: \$35.00
- ✓ Clinical Skills Performance Testing Site for NREMT: \$55.00
