

JON SHOAP

INDUSTRIAL DESIGNER

EXPERIENCE

SDI Technologies - Spring 2016

Worked with a team of designers to create an innovative alarm clock to meet criteria and price point provided by Timex

Federal Mogul Powertrain - Spring 2015

Collaborated with engineers, marketers, and fellow designers to design a product utilizing an innovative sound-channelling material created by Federal Mogul

Fleetwood Fixtures - Spring 2015

Managed a team of designers and architects throughout ideation and creation of a full scale, highly immersive tea-sampling booth for Teavana

Johnson & Johnson - Spring 2015

Worked with other designers to bring a fresh perspective to the branding and packaging of a line of feminine hygiene products

KISD & PhilaU - Fall 2014

Collaborated with designers from Philadelphia and Cologne, Germany to create a cohesive line of friendly 3D-printed desktop organizers

AWARDS

SPRINT Project - 2016

Received second place for our tilt-activated alarm clock design in a week-long competition

Federal Mogul Innovation Challenge - 2015

Received first place for our transformable laptop sleeve-to-audio-enhancing workstation

SPRINT Project - 2015

Inspired my team to take on more than was thought possible to reach second place in a week-long design competition

Internationale Möbelmesse Cologne - 2015

Showcased our "Little Interns" product line at an international tradeshow in Germany
