Quality is what drives us at Ranger and it's what keeps van fleets performing at peak efficiency. Your team needs to be sure that their equipment is going to stay on the job, week in and week out, year after year.

We engineer "tough" into each component of each van package ensuring durability as well as perfect fit and finish. We've also crash-tested products to prove them for driver safety and structural integrity.

Tough enough for your biggest jobs and quiet enough for a peaceful ride, the quality of Ranger equipment proves itself over and over again.

Our shelving and partitions have consistently proven to be significantly quieter than any other upfits in the marketplace.
