**T**he United States, Britain and France opted to strike Syria for its apparent use of chemical weapons without waiting for a report from U.N. inspectors because they were convinced that the Assad government had used chlorine and sarin nerve gas against a rebel-held Damascus suburb, American officials said Saturday.

How is everyone doing? Well? So lets review the underlying facts of the continuously evolving situation. For one reason or another about a week ago Trump Tower went up in flames. The building was not up to code, and does not have a sprinkler system. I can't even imagine the high net worth asbestos never ending case file that will be piling up. In the advent of this and similar revelations it seems that Israel thought it would be a good idea to

opportunistically attack Syria, essentially gauging the market appetite for a new war, and similar value September 11, 2001 criminality. Did anyone, but me notice that? Doesn't seem like the President is too loyal to the tenants of Trump Tower in that regard. I guess the tenants will be looking for a higher asbestos loyalty. So lets now put the whole circumstance together so that it can be properly understood before the value brainwashing narratives shape shift to redirect the reality of the situation. Jared Kushner was presented with the West bank solar initiative, which is a reapplication of the Quantum - Trump border wall to the West bank wall in Israel and Palestine. Instead of executing on that project Jared Kushner opted for an extramarital affair with Hope Hicks. Kirstjen Nielsen was a party of the email correspondence regarding the West bank solar initiative. Instead of creating the conditions for stability through sound economic policy Jared Kushner had an extramarital affair with Hope Hicks. Yes, I believe I already said that, but its worth mentioning again. So arguably the best solution proposed to create the conditions to resolve the long standing grievances between the Israeli and Palestinian people in fifty years is squandered away by Jared Kushner. Its not only squandered away, but not followed up by anyone within the Presidential Administration. Why is that? Well probably to prolong the inevitable demise of the ongoing value criminality, which I have gone

over rather extensively. However, lets go over the value criminality once again against the backdrop of Trump Tower catching fire, and Israel attacking Syria instead of implementing the West bank solar initiative so that Warren Buffett, Berkshire Hathaway Inc. can be better exposed in holding the U.S. government hostage

until fraudulent concessions were made to not fund the border wall. I mean everyone, even Warren Buffett, would like to pay less for energy, healthcare, and taxes, unless there was an underlying issue with the person or company providing the solutions to achieve that objective. Right? I mean you would had to have murdered the person providing those solutions family or something to that extent to not only walk away from lower energy, healthcare, and taxes coasts, but outright hold the U.S. government hostage until you got your way to defraud that person and the public. That my dear friends is the entitled value federal protectionist circumstance, and legal condition we unfortunately find ourselves within. Irrespective of any value brainwashing, the facts will remain today, tomorrow, and moving forward that a viable solution to create the conditions for stability in the Middle East was put forth, but instead the opportunity was extramaritally squandered away, Warren Buffett, Berkshire Hathaway Inc. held the U.S. government hostage, and when Trump Tower caught fire Israel used the opportunity to attack Syria gauging the sentiment for war and a new building. Let me repeat myself, a viable solution to create the conditions for stability in the Middle East was put forth, but instead the opportunity was extramaritally squandered away, Warren Buffett, Berkshire Hathaway Inc. held the U.S. government hostage, and when Trump Tower caught fire Israel used the opportunity to attack Syria gaging the sentiment for war and a new building. This is an alarming set of circumstances, which pattern

and practice of criminality create the conditions that support the underlying basis of my argument.

Enough so that if properly explained to a grand jury they would more than likely return an indictment.

Right? Do you think the public would like to pay more for energy, health care, and taxes so Warren Buffett can get away with using improperly formed

monopoly to financially orchestrate the September 11, 2001 attacks on the World Trade Center to murder David Alger? Probably not. You see my dear friends, ladies and gentleman of the Court, against the backdrop of the solutions set forth the government prevailing in a Sherman Act bid rigging case at trial is more likely especially if used to breakdown criminality going back to September 11, 2001. All the Stormy Daniels cleft Fritolay value social media saturated fat legal redirection in the world will not change that reality. No Michael Cohen Jack Daniels Southampton car contribution scam, or Rudolph Giuliani Bracewell Campbell Soup Philly energy scam, or Robert Kraft deflate gate Mac and Cheese scam has or will have any effect on the facts substantiating the case against Warren Buffet, Berkshire Hathaway Inc. The now seven year long obstructionist value charity has produced no results, and Mark Zuckerberg needing to testify speaks to the fact that value social media scams warrant no further effective consideration. For some of you this will be a refreshing reminder of this mornings Company guidance on the Quantum Apple One, and the transparency of a quantum computational world. For others of you who's lives depend upon these scams, pockets of value graft, corruption, and malversation this will be an upsetting realization. As we move forward I am humble to have been able to be blessed with such solutions so that I may break down the value criminality so that my family, and so many other families may finally get justice. Thank you.
