## **B. CHARACTERISTICS OF EFFECTIVENESS**

<b><u>Expected Standard</u></b>	<b><u>Evidence of Achievement</u></b>	<b><u>Areas for Development</u></b>
<b>Characteristics of 'effectiveness'</b>		
➤ Internal audit work is planned	Planned Internal audit work is based on risk assessment and designed to meet the body's governance assurance needs.	
➤ Understanding the whole organisation its needs and objectives	The annual audit plan demonstrates how audit work will provide assurance in relation to the body's annual governance statement	
➤ Be seen as a catalyst for change	Supportive role of audit for corporate developments such as corporate governance review, risk management and ethics.	

➤ Add value and assist the organisation in achieving its objectives	Demonstrated through positive management responses to recommendations and follow up action where called for.	
➤ Be forward looking	When identifying risks and in formulating the annual audit plan, changes on national agenda are considered. Internal audit maintains awareness of new developments in the services, risk management and corporate governance.	
➤ Be challenging	Internal audit focuses on risks and encourages members to develop their own responses to risks, rather than relying solely on audit recommendations. The aim of this is to encourage greater ownership of the control environment.	
➤ Ensure the right resources are available	Adequate resource is made available for internal audit to complete its work. Internal auditor understands the body and the legal and corporate framework in which it operates.
