

KENNETH CLAIR STORY WILL BE AIRED ON “DEATH ROW STORIES”

April 29 at 8pm on HLN (Check the time in your area.)

Finally the “Kenneth Clair Story” is coming on HLN (the sister station to CNN). This is a documentary you must see. Private Investigator C. J. Ford Jr. discovered that the Orange County District Attorney, wrongfully convicted a [Homeless African American man](#) of a murder in 1984. Ford discovered that the DNA cleared Mr. Clair of the crime, after years of the DA concealing the results of Clair’s innocence.

Ford started one of the [largest wrongful conviction petitions ever](#) because the DA refused to go after the real perpetrator of the crime, and refused to give the defense the information on the real perpetrator of the crime. The petition had over 160,000 signers.

After Ford **exposed** the DA it prompted documentaries and news stories nationwide. The DA says even though the DNA results that Ford discovered, that the DA was withholding, matches someone else and not Clair, the DA refused to prosecute that person or give the defense any information about the real perpetrator.

[Ford started an investigation against the DA’s Office for the coverup.](#) You will not believe the corruption by the DA that has kept Clair, and many others in jail due to some corrupt prosecutors and police officers. This documentary shows what extent the DA would take to “win at all cost” and condemn innocent people, just because the **DA will not admit that they made a mistake.**

The Bottom line is that the DNA doesn’t match Kenneth Clair’s! Watch this Action Packed documentary and decide for yourself....
