

# Bilingüitos Spanish Immersion Programs

## 2017-2018 Program Tuition & Fees

Hi! Thanks for your interest in Bilingüitos Spanish immersion programs for kids. For your convenience, the classes we offered are listed on the following pages.

For more information contact us at [spanishimmersionva@gmail.com](mailto:spanishimmersionva@gmail.com) or visit us online at [www.spanishimmersionva.com](http://www.spanishimmersionva.com).

## **Mommy & Me I & II (6 mo. - 2 yrs)**

We are all for family learning! Mommies & babies learn together through stories, songs, rhythm, and movement! Some parents fear that introducing a second language so early on will confuse the child, but research has shown that it actually has quite the opposite effect. At this age, your baby's brain is at its optimal point for linguistic development and a new language will in fact increase his language processing abilities. Set your child up for future bilingualism by starting him early and being part of the learning process with this fun-filled immersion class!

50 minute class sessions

**Request schedule!**

## **Preschool & Pre-K Spanish Immersion (2 yrs - 5 yrs)**

This full morning of Spanish immersion for your preschooler is structured like a typical day in preschool but all the instruction is done in your child's second language (Spanish, of course). Our teachers will lead the class in fun activities, music, games, crafts, and lessons geared for this age group. We are not teaching Spanish as its own subject like a typical language class, but instead integrating the language into normal activities that your child is already familiar with. This is what creates the immersion environment. The benefit with our program is that your child will be developing necessary preschool skills while also acquiring authentic Spanish vocabulary and sentence structure and interacting with other children doing the same.

*Students must be potty trained to attend Bilingüitos pre-school.*

Full morning of preschool or pre-K twice a week

\$2,360 for the 32-wk school year (\$590 per quarter)

**Currently scheduled for: Thursdays & Fridays 9:00 - 11:45 a.m.**

## **Kindergarten Spanish Immersion (5 yrs - 6 yrs)**

Let your kindergartener immerse himself in the world of Spanish! We structure this hour and a half of Spanish immersion around engaging our students' interests and allowing them to play, discover, and explore in their second language. We have structured activities like games, crafts, music, and story time, but we also allow time for creative free play, as this is essential for children of this age group. We focus on typical kindergarten skills (shapes and colors, letters and numbers, print awareness, fine motor skills, etc.) but all the instruction is provided in Spanish to create the immersion environment. Don't be surprised if you start to hear your child incorporating his newly acquired vocabulary in conversations or playtime at home :)

75 minutes of kindergarten enrichment

**Request schedule!**

## One-on-One Spanish Immersion (1 - 5 yrs)

Think about how your child has learned English. Has it been through classes on how to speak? If English is her native language, then of course not! She learns through you and others speaking to her, interacting with her, playing with her, and explaining things to her. In one-on-one immersion, your child will learn Spanish the very same way. We come to you (or your location of choice!) and use the same methods of play-based learning, games, stories, and activities that we use in our immersion classes, with even more focused attention on your child. Parents generally like to schedule 1-2 hour sessions. It can double as babysitting if you need to get work or errands done. You can also arrange it for close-in-age siblings or even friend groups.

Starts at \$40/hour for the first child

Each additional sibling joining the session - \$10/hour

**Schedule frequent sessions for most effective learning.**

## Private Spanish Classes for Kids (6 - 12 yrs)

In our private spanish classes, elementary aged students learn with one-on-one instruction and attention. We tailor these classes to the level and needs of the student, with structured activities, games, worksheets, crafts, etc. Unlike our other programs for younger learners, these classes are not full immersion, but rather are a bridge between the students native language and the target language (Spanish). However, it is still not a typical language course that drills boring charts and dry grammar. Instead, we focus on conversation and real world usage and our methods are anything but dry! And the most convenient part is that we come to you and fit your schedule! Also ask about how you can arrange it for siblings or even friend groups.

One session (hour) of private instruction for one child -\$40

Each additional child joining the session - \$10

**Schedule frequent sessions for most effective learning.**

## After School Spanish Program for Elementary Schoolers (K - 2nd, 3rd-5th)

Older kids know what's up. You can just imagine it, "Momm, you signed me up for more school after school?" This won't be the case our game-based Spanish after school program. We love to engage older children by incorporating games and activities that get them excited and involved (think Mad Libs, Guess Who, Spud, Musical Chairs, and more!). At the end of the school year, we even put on a short skit for the parents that the kids themselves help develop!

2 hours of after school class & activities once a week

\$260 per quarter (based on our 32-week school year)

**Currently scheduled for: Fridays 3:00 - 5:00 p.m.**

Please note: class availability and scheduling will vary depending on enrollment numbers.

Minimum class size: 5 students; Maximum class size: 10 students
