*Changing the
Face of Business*

A program of the National Association of Black Accountants, Inc. – Detroit Chapter

Changing the Face of Business

ACAP is a program of the National Association of Black Accountants' Center for Advancement of Minority Accountants.

The primary objective of ACAP is to increase the number of high school students from under-represented ethnic groups that attend college and major in accounting or business concentrations. Through ACAP's efforts, students receive educational enrichment experiences and practical help needed for college preparation and a career in accounting or business.

ACAP began in 1980 when the National Association of Black Accountants, Inc. (NABA) recognized the need for a program that would direct African-Americans and other under-represented ethnic groups towards the accounting profession. Realizing that preparation for a professional career begins in junior and senior high school, the Seattle Chapter of NABA designed a pilot program that could mark a turning point in the academic lives of secondary students, motivating them to pursue a higher education. Accordingly, the summer residency concept was developed.

What Is ACAP-Detroit?

ACAP-Detroit was established in 2001 to increase the understanding of accounting and business career opportunities among high school minority youths in Michigan public and private school systems.

Since a particularly small percentage of African Americans, Hispanic and Native Americans are currently pursuing careers in accounting and business the program emphasizes recruiting students from these and other minority backgrounds. Students are selected based on a variety of factors, including high school counselor recommendations and student applications.

ACAP-Detroit is a summer residency program giving students the opportunity to reside in college dorms at Wayne State University for six days and five nights and attend classes on accounting and college preparation. Classroom topics are taught by presenters who are experts in their fields and passionate about teaching. The Program is enhanced through team building activities, professional office tours, field trips, as well as other activities.

Each student is assigned a counselor during the program. The counselor-to-student ratio is 1:5 in order to provide students with the best possible supervision. ACAP-Detroit alumni are left with a life-altering experience giving them greater self-esteem and a sense of responsibility for others. ACAP-Detroit alumni are then challenged to continue their career preparation and leadership skills by serving as Ambassadors in future ACAP-Detroit programs. Ambassadors will serve as volunteers and guides for first-year ACAP-Detroit participants.
