

**For the ease of the patients wanting to see the doctor without having to wait outside for longer periods, we have a token system. The tokens are hung on the glass window outside the surgery in the morning after 7am & in the afternoon around 1pm. Patients who take a token must be present with it when we open and call their number at 8:30am for the morning session & 2pm for the afternoon session. Patients must remember to take one token for every patient (so if a family of 3 wants to see the doctor, please take 3 tokens). Please talk to our friendly staff to clarify if required.**
