Timberlink makes special Christmas donation

Timberlink is so delighted to be able to donate 2 defibrillators to the CFS's at Tarpeena and Kalangadoo with the units to be put on trucks at both sites.

The Timberlink Tarpeena sponsorship committee had heard that the CFS's were in need of this potentially lifesaving equipment and made it a priority to get them to the sites for Christmas with the delivery was made on the last day of business for the year.

Many Timberlink workers, including Jamie Irving are CFS volunteers in their spare time and Timberlink is proud to be able to help the heart and soul of our local communities in such a meaningful way.

About Timberlink Australia | New Zealand

Timberlink (timberlinkaustralia.com.au, timberlinknz.co.nz) is a leading Australasian timber products manufacturing business. The business has three sawmills at Bell Bay (Tasmania), Blenheim (New Zealand) and Tarpeena (South Australia) that manufacture plantation structural pine products. Timberlink has sales and distribution teams based in Perth, Adelaide, Sydney and Melbourne and sales teams based at the Bell Bay and Blenheim sawmills. Aligning the Timberlink business with forest resources enables the company to have a long-term committed approach to its business and customers. Timber manufacturing is a carbon negative industry. For every cubic metre of dry finished timber produced, 631kg of carbon dioxide is drawn from atmosphere and retained in the timber over its entire lifetime.
