

COMMUNICATIONS TRAILER UPDATE

After using the trailer at the Lester Dent Doc Savage Special Event, Larry Ballew, ABØHP, returned it to the City of Macon Public Grounds area on Vine Street. Charles Roberts WBØHLW, winterized the Generator and covered it with plastic to prevent excess exposure to the weather.

At the October Radio Club meeting, there was some discussion about getting a sign made to put on the trailer to identify its ownership and its use. The cost would be under \$100 for one sign with information on both sides. We decided to wait a while until more information was available.
