

## Garbage Disposal

Please dispose of your garbage appropriately. Garbage rooms are located on your floor.

Rubbish chutes for **small** items

- Household waste should be inside bags, tied off and not leaking, able to fit easily into chute. Should your item be too large for the chute and become lodged, you may be liable for costs involved in clearing the blockage.

Recycling bins for **small-medium** items

- Recyclable material, flattened where possible (card/plastics)

Garbage Holding Room for **large-oversized** items

- Furniture, household items, boxes, polystyrene and plastic wrapping, should be neatly placed in the room adjacent to the loading dock on level 1
- This room can also be used for items which might be re-used or up-cycled by residents (post a photo on the FaceBook page).
