You may have noticed the slides each Sunday have been looking a little fuzzy lately. That is because our projector is nearing its last gasp and the wiring is out of date. We have the funds on hand and set aside for replacing the projector; however, we would really like to replace the wiring as well which will also help with the visual clarity. The wiring project is fairly substantial and with materials and labor will cost approximately \$6,000. We have someone who is very familiar with Bethany's technology lined up to do the work, but first we have to have the funds. If you would like to contribute to this project, over and above your regular giving, please designate it and place it in the offering plate or give it to Dave Jansen or Susan Cowles. Thank you, in advance, for helping us improve our technology!
