## School supply list 2018-2019

### K-4 Science - Mrs. McCracken Rm. 131M 2018-2019 Science Supply List

Welcome back scientists! I'm sad that I will miss the start of the year, but am looking forward to coming back and working with you all again later in the Fall.

Below are the basic supplies that I'm requesting of each grade. We will be using a lot of consumables, so please be on the lookout for some special requests later in the year for certain experiments and projects. I will try to have storage bins for all supplies. Please label any supplies with "McCracken/Science" if dropping off to your student's homeroom teacher.

I've also started a PledgeCents for Chromebooks specifically for K-4 Science. (Go to <https://www.pledgecents.com/cause/rjlsqz/putting-the-t-in-stem>) These Chromebooks will allow our young scientists to do more with the LEGO Education WeDo kits Bache-Martin received during the 2017-2018 school year.

Thank you for your continued support of K-4 Science here at Bache-Martin and I can't wait to come back!

Best,  
Ms. McCracken
