

'It's quick, simple and cost effective

True POS Ltd Proposal

True POS Ltd Overview

Our goal is to provide total end to end solutions for all our clients, improving business efficiencies to save them valuable time and considerable expense.

Our clients attest to a dramatic Return on Investment. True POS Ltd.'s package boasts speed, ease of use, reliability and an extensive range of powerful features.

The system has a variety of software features to suit all forms of Retail and Hospitality.

These can all be accommodated from the one tailored solution. The systems resilience and reliability ensure your business is always operational. If the local network fails, the POS terminal will continue to run offline until the problem is resolved, at which time all data is automatically synchronized, updated and stored on the cloud server.

The system can accommodate all forms of standard payments as well as gift cards, vouchers and client accounts.

All sales information can be reported centrally, by bar, individual terminal and for any date and time range

Interval drinks can be ordered and paid for before the show starts via the tills and produce a customer and bar copy of the receipt for preparation and collection of the drinks during the interval

The web back office will manage product, pricing, stock and user management centrally with updates available to be pushed instantly.

Optional integrated contactless card payment terminals can be added to speed up the order process, reduce errors from keying transactional data and simplify cash and card reconciliation at the end of the day

Integration in to accounts systems are labour saving and error reducing.

Features & Benefits

- **Real time reporting** – Through our cloud back office you can log in and check any data in real time.
- **Highly customisable** – Use our simple drag and drop tool to customise your selling layouts to whatever suits you best.
- **User friendly** – Train your staff in minutes with our easy to use front end software.
- **Click & Collect Module** – your own website
- **Cloud back office** – Log in from any device with an internet connection to your back office. Handy for checking sales and making price adjustments on the go.
- **Scalable** – From one site to 1000
- **Accounting Integration** - Save time and reduce error
- **Affordable** – Our system will save you hundreds of pounds compared to more conventional EPOS systems
- **Centrally Manage all products and stock** – All this is controlled centrally via your back-office portal, accessible from any device with an internet connection.
- **Integrated contactless card payments** – Our system integrates with payment providers such as iZettle, Sumup & Payment sense.

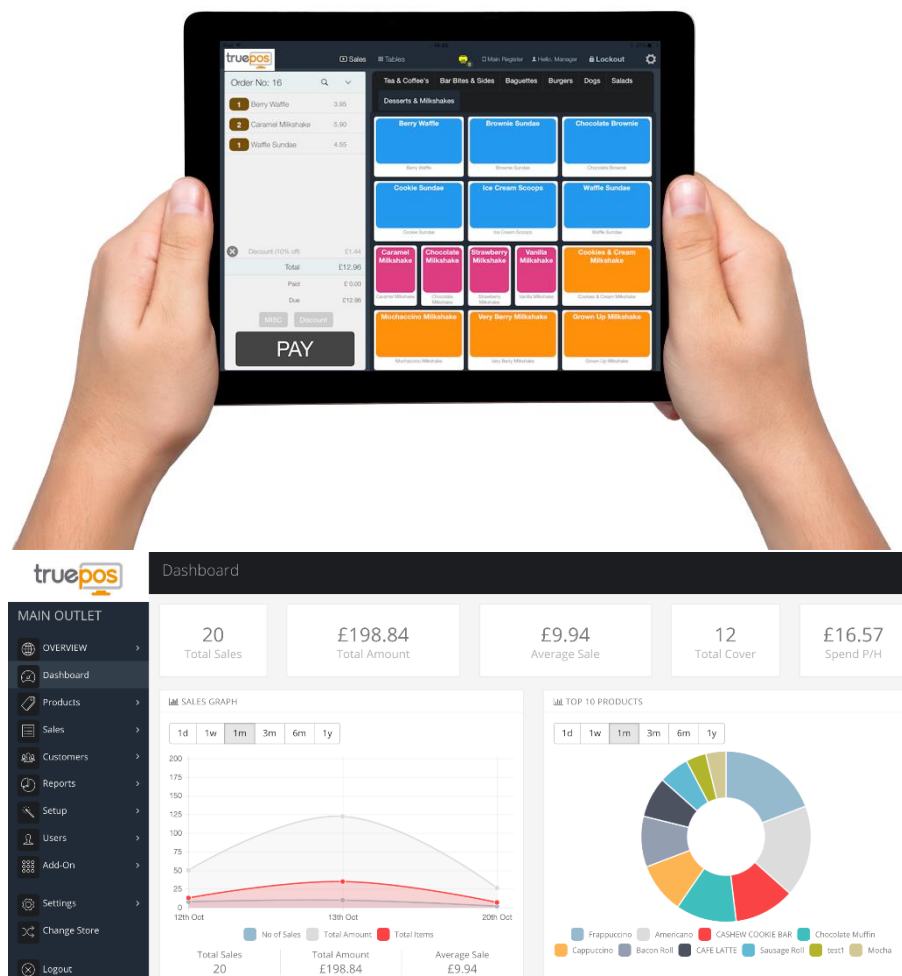

True POS can supply a bespoke Epos solution based on your requirements with the ability to upscale as required with tablet ordering and integrated card terminals.

We will ensure that all aspects of your specification are provided and guarantee the highest level of technical support and hardware maintenance once the system goes live. Our engineers can be onsite at any time to provide live cover and ensure you are always operational. Going forward we have various features which can be implemented to enhance your guests experience.

Why True POS?

True POS Ltd offers a POS system that helps you make the most of your time and money, gives you detailed information on everything happening in your business and makes you more attractive to customers. The True POS iPad based point of sale system is a simple solution

designed to help businesses in the hospitality and Retail industries.

After sales support

At True POS we don't just deliver a solution – we deliver a service.

Our philosophy is to provide a solution that is reliable and easy to use and provides a tangible return on investment.

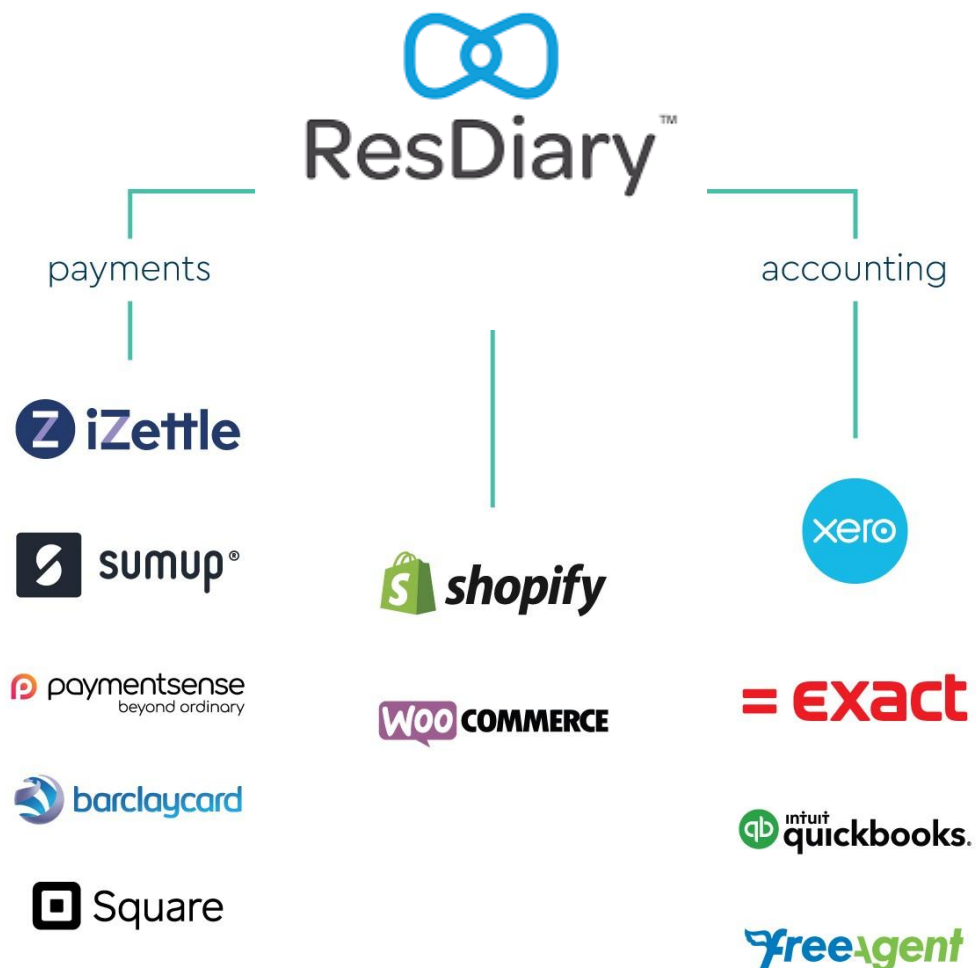

Part of this philosophy is to provide customers with the highest level of after sales service and this is achieved through our helpdesk and Support Programs, all based in the UK.

Our system is installed, programmed and supported by True POS, leaving you the freedom to commit your energy on the day to day aspects of your business.

A System that integrates with lots... Integrations Ecosystem

Free up time with automated integration.

Our integrations ecosystem is in place to help you to complete your deployment, regardless of your industry vertical. Once you are connected to the TruePos cloud, we can connect you seamlessly to any of our ecosystem partners.

What some of our Customers say

"An all-in-one solution that has helped revolutionise our business."

Danny Anstee - Owner, Cravin Coffee

"It probably wasn't the most professional thing I've done in my life, to send an email and sign it off "help", but with Truepos it didn't matter!

"I can monitor my sales, stock and cash flow, wherever I am from my mobile. This gives me ultimate flexibility to run my business."

"TruePos has delivered exactly what I wanted, a simple yet very effective system."

"I can unlock my iPad from its stand and take it around the shop to measure our stock. So easy and efficient".

Nina - Owner, Miss Madeleine's

"The whole team at Stylus are extremely pleased with the all-round service provided and would highly recommend Truepos to anyone wanting a fully managed till system

True POS have been on hand at every step of the way providing concise information and direction so that the till system tailored the shops specific requirements.

"Jason, Owner Stylus Lounge"

"It's genuinely my favourite purchase out of all of the equipment I've had to buy for the new premises."

"Thank you." - Joe, Owner Nonno - Joes
