Speed, precision
& design

i-mop XL[®]

The first of its kind, the i-mop solves the problems of floor cleaning systems by combining the flexibility of a floor mop with the power and speed of industrial scrubber driers. We found out that most areas are still being cleaned by mop and bucket, because other floor machines are just not flexible enough to work in most spaces. The i-mop makes it possible to clean any surface, with freedom of movement and great ease of use. No borders or boundaries. This machine isn't just designed for cleaning, it is designed for the cleaner.

Full size scrubber dryer with the flexibility of a flat mop

scrub & dry

- 46 cm cleaning path
- 2 powerful brush motors
- Nylon protective bumper
- Cleans right up to the edge

extreme mobility

- Low profile deck to clean underneath objects
- 360° of flexibility

click on / click off

- Easy to fill, clean & empty above a sink
- Use different tanks for different chemicals
- Reduce unproductive refill waiting time by prepping in advance according to HACCP standards.

battery charge

- Quick exchange
- 2 sets = 24/7 power
- Runs on i-power 9 or 14 batteries

easy transport

- Transport wheels
- Fits in the trunk of a car
- Easy to store & carry upstairs
- 100% mobility

A close-up photograph of a white toilet brush deck. The deck is mounted on a white toilet seat. It features a black top layer and a blue bristle layer. A vertical dimension line on the left indicates a height of 7cm from the top surface to the bristles. A horizontal dimension line at the bottom indicates a width of 46cm. The text 'Low profile deck' is written in blue at the bottom of the image.

Think outside the box

24/7 energy

Flexible and fast!

The i-mop features a high speed twin brush scrubber drier deck with a working area of 46 cm (18 inches), with unmatched agility. The two counter rotating brushes give you a smooth experience and allow you to control the machine even with one hand. Clean around and underneath objects, just like a mop.

Do more with less!

Our quick exchange i-power battery system makes the i-mop a real cleaning workhorse. With 2 sets of i-power 9 your i-mop will never need to take a nap. Clean from 9 to 5 or 24/7 with a single machine. No cords to trip over or get tangled up, just switch on and away you go.

Click on / click off!

Fill, refill and empty the machine easily. No longer bound to installed filling stations, get your water from a sink in a pinch. Switching between chemicals in a matter of seconds by clicking on a different solution tank. You will be surprised by how water efficient the i-mop is. Good things do come in smaller packages.

Eco-mode

Our eco-mode allows you to save additional water when only a little is needed and also protects your water sensitive floors against overexposure.

Flip the switch!

No PhD required to operate the machine, we have done all the programming for you. A simple dial to select the desired operating mode.

I go, where you go!

The i-mop has been designed in such a way that it takes up very little floor space when not being used. Store it in a closet within reach. Take it with you up and down steps and stairs. Pop off the batteries and lift the water tank from the machine to load it into the trunk of a car.

Technical specifications

Application	Indoor, hard surfaces only
Theoretical performance	Up to 1800 m ² per hour
Practical performance	1000 - 1300 m ² per hour
Brush speed	350 RPM
Brush pressure	22,5 kg
Operation width	46 cm
Size machine (l x w x h)	50 x 38 x 120 cm
Weight without batteries & water	18.5 kg
Clean water tank	4 L
Recovery clean tank	4-6 L (max. 8 L)
Material	PP, Aluminum alloy
Power source	2 i-power 9 batteries*
Battery	24V - 8.8 Ah
Run time	60 minutes
Charger type	Off-board*
Charger	110-240V, 50/60Hz

* Batteries and charger can be ordered separately.

i-land[®]

Our goal is to simplify the entire cleaning process and increase your level of joy while you clean. So for long days, huge buildings and on-site projects, you are going to need a work station that holds all of your equipment. That's why we created the i-land. An all-in-one solution, which makes sure you have everything you need in one accessible and convenient supporter. No more unproductive traveling time!

Power up

Space is in short supply these days. We should not waste a single inch when it comes to the limited storage space we can even get.

That's why we thought: why not use the vertical option towards the ceiling for charging your batteries? You only need one power socket for multiple chargers. Now you can easily attach, hook-up, and power your batteries without losing precious space!

Cleaners on the go

Need to travel with your cleaning equipment, and don't want any unnecessary harm done during transport? Protect your i-mop inside of an aluminum hardware case on the go, whether it is transported by air, boat, car or even from building to building. Bring your batteries, brushes and different tanks with you in our i-bag. Carry with a shoulder strap or integrated backpack structure. It reduces the carry weight of your i-mop XL to 15,6 kg!

Our bright future **together**

663,000,000 people don't have access to clean drinking water. Together with Made Blue we wanted to do something about this.

Let's jump into some details!

Saving water all over the world.

By operating i-mops, your partners, clients and users lower the water footprint whilst contributing positively to the availability of water in the world.

Water conservation

The i-mop was designed to change the process of cleaning, and has done so in two ways: creating a revolutionary device that increases cleanliness, and also saving water usage for the user, the company, and the planet.

Donate

By now Made Blue has realized over 1.5 billion litres of clean water in developing countries, enough to serve over one hundred thousand people every year.

Clean water & charity projects

Made Blue measures the total water used or saved by products or services and ensures that same amount to be made available elsewhere. Water projects are implemented by international charity organisations such as Red Cross and Amref Flying Doctors.

Made Blue family

Being a part of the i-team, means being a part of the Made Blue family. We encourage all of our employees to tell the story, and inform everyone about Made Blue.

Join the i-team

Innovation & caring about the environment should go hand in hand. Join us in making the world a better place, for now and the future. For more information, visit: i-teamglobal.com

The i-team story

Inquire

Creating better solutions starts with listening. Our insights come from collaborating with our customers in order to understand their needs.

Innovate

We try to rethink - from the ground up - how things should be done. While we harness our experience, we are not constrained by conventional solutions. That's how we - our team of designers, engineers, manufacturing staff, the way we collaborate with customers and partners - have fundamentally reinvented the process of cleaning.

Inspire

The spirit of our enterprise is animated by a commitment to the success of our customers, our business partners, and our community. This teamwork is only made possible through transparency, accountability and mutual respect.
