

Reliability Solutions Keep Your Business Running and Lower Energy Spend

AT A GLANCE

Working with leading manufacturers like Mitsubishi, John Deere, Volvo, and FPT, we provide turnkey installations complete with financing + leasing structures including on and off-balance sheet options. Once in place, you can rest assured business operations can continue uninterrupted when the grid is interrupted or unavailable. Additionally, our services include monetization strategies to offset costs while providing enhanced power purchasing options.

	500k	Average number of people affected by power outages <u>daily</u> in the US
	\$150 Billion	Estimated cost of power outages to the US economy in 2014.
	285%	Percent by which the US grid loses power more frequently today than in 1984
	4X	Increase in 5-year annual outage average (2015 vs. 2000)
