

MPROvE
MultiProfessional Simulation in Neonatal Education

6th **2017**
**NATIONAL NEONATAL
SIMULATION CONFERENCE**
“**Simulating together to improve neonatal outcomes**”

VENUE – GRAND HARBOUR HOTEL, WEST QUAY ROAD, SOUTHAMPTON SO15 1AG

26
SEPTEMBER
27

Delegate Fees (in GBP)	One Day	Two Day
Doctors	120 £	180 £
Nurses	90 £	150 £
Technicians	60 £	100 £

Abstract Submission:

We are pleased to announce that we will be accepting abstracts for workshops/posters/podium presentations for the 6th National Neonatal Simulation Conference to be held on **26th & 27th September 2017**. Please download and complete the abstract form at www.mproveonline.com and return to contact@mproveonline.com

Deadline for Abstract submission for workshops – **Monday 20th March 2017**

Deadline for Abstract submission for Poster/Podium – **Monday 15th May 2017**

You will be contacted by email if your workshop/poster/podium has been accepted within 2 weeks from deadline.

To Register Please Visit - www.mproveonline.com

Enquiries - contact@mproveonline.com

CONFERENCE SPEAKERS

01. DR JOE FAWKE

Consultant Neonatologist
University Hospital Leicester
NHS Trust, Leicester, UK

02. DR SIJO FRANCIS

Consultant Neonatologist and
Clinical Lead
St Georges University Hospital
Foundation Trust, London, UK

03. PROFESSOR DAVID GABA

Associate Dean for Immersive and
Simulation-based Learning and Director
of the Centre for Immersive and
Simulation based Learning (CISL)
Stanford University School of Medicine
Stanford, USA

04. DR RANJIT KUMAR GUNDA

Consultant Neonatologist,
Portsmouth Hospitals NHS Trust
Portsmouth, UK

05. PROFESSOR LOU HALAMEK

Director, Centre for Advanced
Pediatric and Perinatal
Education, Division of Neonatal
and Developmental Medicine
Stanford University School of
Medicine, Stanford, USA

06. DR JENS-CHRISTIAN SCHWINDT

CEO Sim Characters, Austria

07. DR ALOK SHARMA

Consultant Neonatologist
University Hospitals Southampton
NHS Trust, Southampton

08. DR HANNAH SHORE

Consultant Neonatologist,
& TPD Simulation for the School
of Paediatrics in Yorkshire
and Humber

Themes

1. Multiprofessional neonatal simulation - is it a cost effective educational intervention?
2. Objective assessment of human and system performance in health care through simulation
3. Simulation based research in neonatology – what should we focus on?
4. The OPEN concept
