Expansion Update November 11, 2018:

Work continues on the new Fellowship Hall with the installation of the heat/air systems, drop down ceilings, lighting, paint on the walls, cabinets and electrical components all in! Next week will see installation of the counter tops and back splashes, as well as the flooring. Looks great! Our workers are really hard at it. Check out the schedule for providing lunches to the workers. They deserve it!

Look at the beautiful cabinets Van built!
