

**Sugar Services Proserpine and
Farmacist present:**

Soil & Nutrient Management Workshop

A practical and interactive day to look at the properties of our Proserpine sugarcane soils

When:

Thursday 19th March
8.30 am – 3 pm
Lunch provided

Location:

Proserpine
Community Centre
36 Gardenia St
**Bring a hat and sun
smart clothing**

Topics include:

- Field walk – Soil pit investigation in an EM and yield mapped variable block
- Using the new soil health test kits for sugarcane paddocks
- Physical and chemical attributes of soil that impact on soil health and nutrient cycling
- Potential loss pathways for nutrients
- Practical demonstrations of the properties of different Proserpine soil types

Bring some soil from your farm – collect 500 grams of topsoil (0-20cm deep) and the same amount of subsoil (40-60cm deep). Make sure to store separately

RSVP BY 13th March
