## NEW ENGINE DRIVEN COMPRESSOR PACKAGE

---

Champion is excited to announce the release of a new Engine Driven Compressor Package. Our goal was to build a better package, not just modify an existing product. Through extensive feedback from our distributors and customers, we have accomplished this task like a true Champion. Our Engineering and R&D departments focused a significant amount of time to develop the best engine drive package in the market. Champion is excited about the release of this new Engine Drive compressor package and we know you will be too.

Brief highlights on some key features are listed below. For all the details on this exciting new compressor package, check out the new 12 page Engine Driven Brochure and the product presentation available on GDInside.

13HP Honda provides reliability with maximum output and minimum fuel consumption.

Belt tensioning system simplifies service.

Flexible oil drain hose for clean and simple oil changes.

Increased top plate clearance enhances serviceability.

Simple mounting foot designed for easy installation.

We have procured the materials and are ready to start building compressors. Get your orders in now because the pipeline is filling up fast. Don't hesitate, as it's time to get this new product in your customer's hands today. To make ordering our most popular models easy, new specific part numbers have been created and are listed below.

<b>CAERSB01</b>	<b>13HP Honda, R15, 30G, H, 175PSI</b>	Replaces the old CAERSA03
<b>CAERSB02</b>	<b>13HP Honda, R15, 30G, H, 175PSI, CAL</b>	
<b>CAERSB03</b>	<b>14HP Kohler, R15, 30G, H, 175PSI</b>	Replaces the old CAERSA21
<b>CAERSB04</b>	<b>14HP Kohler, R15, 30G, H, 175PSI, CAL</b>
