Champion Launches Compressor/Generator Package

As a result of our commitment towards new and exciting product development, Champion is pleased to announce the launch of the new Compressor/Generator package model HGRV7-LPH-G. This package includes our legendary RV-15 Compressor Pump with the industry leading 13 horsepower Honda GX390 Engine and a 4000-Watt Generator. These three components together give you the flexibility to run both pneumatic and electric tools off of one single package. Consistent with the RV-Series pump, this package will be labeled with the Centurion II name.

Product Detail

RV-15 Pump

Loaded with rugged features, the RV-Series 100% Cast Iron splash-lubricated pump utilizes special alloy steel reed valves to provide a self-cleaning design. The industrial-grade dependability of the RV-15 pump makes it possible to deliver long-lasting performance and tremendous value.

Honda GX390 Engine

The Honda GX390 Series OHV commercial-grade engine is designed for the most demanding applications. This engine has set an industry standard for reliability and durability. The overhead valve design offers cooler, fuel-efficient operation and the cast iron cylinder sleeve provides longer service life. The GX is reliable, easy starting and quiet running, --meeting EPA and CARB emission levels standards.

Electric Generator

This Electric Generator is a brushless, 4000-watt generator with (2) 120V, 15A and (1) 240V, 20A receptacles. This generator has a total harmonic distortion (THD) less than 5% and 100% copper windings.

Below is a chart showing the model, part number and performance of the unit

MODEL	PART NUMBER	SHIPPING DIMENSIONS	APPROX. SHIP WEIGHT	TANK CAP GAL.	RPM	CFM DEL'Y @175 PSI
HGRV7-LPH-G	CC1153480	47L X 32W X 47H	490 LBS	4 Gal. (Qty 2)	784	17.9

Leadtime and Availability

Our goal is to keep inventory of this product in stock at all times, so you can place and order and have it ready to ship immediately! This product will also show in stock through the online entry portal under the Centurion II offerings.

Pricing and Discounts

This Compressor/Generator package sells for a list price of \$ 5,750.00. The Champion Reciprocating discount structure applies, which puts this compressor/generator package at a very competitive price in the market. As with any other current Centurion II compressor package, this is eligible for the quantity buy discount. Please refer to document CHDS005-0116 for discounts and quantity buy program. The price book has also been updated with this information. Please use the latest version of the price book (CH012_0116_v2).

Support Materials

The following support materials are now available on GDInside:

1. Product Brochure (CR-ENG-DRIVE_2nd_5-16) - Package has been added to current Engine Drive Brochure.
2. Product Brochure/Cut Sheet (CRCS-RV15A-CG) - This is a single page dedicated cut sheet.
3. Operation/Maintenance Manual & Parts List (37-1369-E).
4. Product images.
5. As mentioned, price book CH012_0116_v2 has been updated with this product included on page 15, **along with the below changes.**
 - o Page 28 - The Commandair 3600 RPM motor range is from .75-2 HP instead of .50-2 HP.
 - o Page 40 - The California Code Adders have been removed, as they are N/A to simplex.
 - o Page 41 - The Flexible Hose part # P0816A is a 16" hose instead of 15".

We are extremely excited to offer this new compressor package to you to sell to the market. We hope that you find the support materials helpful, should you have any questions, please feel free to contact your local REP Agency, Territory Sales Manager, or Product Marketing.

Thank you for your continued support!
