## Grids Options:

Optional grids between glass add a distinctive look to your home's curb appeal and eliminate cleaning.

### Suggested Grid Patterns:

\* National Fenestration Rating Council

\*Glass Package values are determined utilizing 2.3 mm single strength glass panes. Values can vary depending on use of different glass thicknesses, grid options, tempered glass and other glass options and sash/frame structural reinforcement. Other thermal values are possible by special glazing, framing and grid applications. Consult Interstate.
