--	-----	-----

**Don't be fooled by companies that promote center-of-glass U-Factors. Accept ONLY NFRC certified Whole Window U-Factors.**

\*National Fenestration Rating Council

\*Glass Package values are determined utilizing 2.3 mm single strength glass panes. Values can vary depending on use of different glass thicknesses, grid options, tempered glass and other glass options and sash/frame structural reinforcement. Other thermal values are possible by special glazing, framing and grid applications. Consult Interstate.

<sup>(1)</sup> SHGC, Solar Heat Gain Coefficient is the fraction of incident solar radiation admitted through a window, both directly transmitted and absorbed and subsequently released inward. SHGC is expressed in a number between 0 and 1. The lower the window's Solar Heat Gain Coefficient, the less solar heat it transmits.

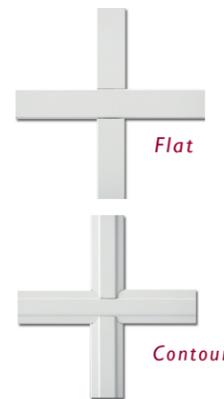

## Double Hung Locks

White

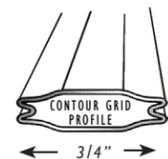

## GRID CHOICES

Internal grids will give your InVue Model 5200 windows the look and feel of true divided lite windows without the hassle! Because they're between glass panes, these grids never require cleaning. Our beautiful grids are available in both contoured or flat design.

## LIGHT-LIFT™ SP (Superior Performance) Window Sash Balance System

Interstate double hung vinyl windows are built exclusively with the Light-Lift SP Sash Balance System.

- Smooth and silent operation - sashes glide up and down with ease.
- Enables full egress without limiting sash travel.
- Interlocking pivot bar for a higher structural performance rating.
- Stainless steel coils won't rot and last a lifetime.

For Casement/Awning applications use InSight Model 6800.

### InVue 5200 Window Features & Benefits

**Strong** aerospace frame design with multi chambered profiles assure energy efficiency.

**3/4" insulated glass** units for optimal thermal performance.

**Attractive exterior profile.**

**Duralite™** - our most energy efficient insulated glass spacer system.

**Dual Energy Saver Glass** Option - Low E glass and argon filled airspace.

**Four point welded corners** on frame and sash for extra strength.

Exclusive **Light Lift™ SP balance system** for easiest operation.

**Tilt-in sashes** for easy cleaning.

**Balance Covers** are more attractive and reduce drafts.

**True sloped sill** keeps water out during heavy rain and allows for easy cleaning.

**Continuous dual weather stripping** to reduce air infiltration.

**Night latches** for ventilation and added security.

**Jamb foam** fills void between window framing and home and helps to insulate.

**Extruded aluminum screen frame** with fiberglass screen cloth deters insects.

**Standard color:** White/White.

**Optional colors:** 15 in-stock exterior paint colors and unlimited custom colors.

**Optional continuous head & sill** on many multiple window units.

**Limited Lifetime Warranty.**

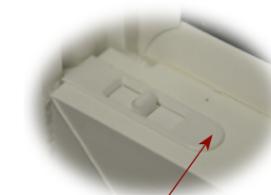

Self-sealed Sill Overlap (Dam Leg) resists water infiltration during extreme weather conditions.

Full integral Lift Handle for ease of operation.

Low profile Night Latch allows restricted ventilation.

Aesthetically pleasing low profile Recessed Tilt Latch.
