

# SMART RENTAL FOR CRAFTY BREWERS

Interested in a Centrifuge Clarification System to boost the output, productivity and yield of your Brewery Operation ?

With CentriTech you can rent the right centrifuge system on an easy and simple arrangement without wasting one thought on big Investment or CAPEX expenditure.

A large volume of perfectly brewed beer is lost in the process when cellaring-off dry hop solids, surplus yeast and trub. It's all money going down the drain.

But with a CentriTech centrifuge skid systems you can exploit it to the maximum and sell more beer. We have the right solution ready for brewers small and large!

Did you know fermentation tank bottoms contain up to 80% perfectly brewed beer? And even more can be recovered from unclarified hot trub. Why throw it away when you can sell it instead?

# CENTRIFUGE SKIDS AND PUMPS

CentriTech is specialised on process solutions with Centrifuges and Separators and draws from over 20 years experience from its founding members.

Our Centrifuge Skids can be equipped with all the pumps, instrumentation and controls needed to tailor each individual solution.

## Greater Yield from the same Resources

- 5 to 10% more beer from the same amount of raw ingredients
- Same amounts of beer brewed with significantly reduced energy and hours
- Multi-purpose applications in the brewing process

With a centrifuge you can shorten that time by about 1/3. No matter the size of your brewery, there's no limit to your flexibility and speed in brewing and marketing your beers.
