

Leadership depends on the best advice. Get it from the

CoreNet Global Knowledge Center

Think of it as a corporate real estate information facilitator, helping you sort through thousands of pages of articles, publications, industry news and trends, research and more. In seconds, the Knowledge Center's rapid document retrieval system can identify and organize the information you need — so you can spend your time dealing with the strategic issues you face.

As the global clearinghouse for corporate real estate and workplace information, the Knowledge Center places CoreNet Global on the leading edge of virtual information centers. And offers members a valuable resource.

In seconds, the Knowledge Center's rapid document retrieval system can identify and organize the information you need — so you can spend your time dealing with the strategic issues you face.

The vast collection of information is organized into several levels, each accessible via a "passport." All CoreNet Global members have free access to Level 1, which contains past *Leader* articles, and other reports. For a small fee — daily, monthly or yearly subscriptions — they will have access to survey results, award submissions, research reports and past compensation studies through Level 2. Learning Partners and Research Partners will have exclusive access to other sections of the Knowledge Center.

As corporate real estate and workplace knowledge grows, the Knowledge Center will make it available. This dynamic tool is updated daily. And if you need the power of the human brain behind your research, CoreNet Global's Knowledge Center Staff can help with any research requests.

For immediate insight into today's corporate real estate and workplace environment — and tomorrow's — connect with the Knowledge Center from CoreNet Global.

Empowering Corporate Real Estate
and Workplace Executives

Diverse perspectives bring new solutions. Discover them with the

CoreNet Global Diversity Database

Diversity on Demand, CoreNet Global's diverse supplier database, allows you to leverage the resources and expertise of minority and diverse suppliers — providing a strategic advantage.

Created to connect the CoreNet Global community with minority- and women-owned business enterprises (M/WBE) and all other diverse SBA-classified vendors, *Diversity on Demand* is a cost-effective way to match the right vendors to the right jobs.

The database easily sorts and selects appropriate vendors. Within minutes of a web-based search, members will see all matching M/WBE vendors and can immediately review qualifications, certifications and profiles.

The database easily sorts and selects appropriate vendors. Within minutes of a web-based search, members will see all matching M/WBE vendors and can immediately review qualifications, certifications and profiles, then broadcast on-line RFI's, RFQ's and RFP's.

Developed by CoreNet Global's Diversity Committee, *Diversity on Demand* is the first phase of an ongoing initiative to encourage its membership to become more aware of and engaged with the minority and diverse business community overall — both as business partners and as employers.

For a strategic advantage — diversify with www.corenetglobal.org/diversity
