## *Profile*

---

Most recently I have worked as a Project Engineer/Manager at Delta Sound, this role was highly varied and saw me work on many high profile events. Previously completing my Scuba diving instructor, First aid instructor, CPR instructor and O2 provider instructor ratings. I subsequently worked out in Mexico on the Yucatan Peninsula teaching diving then progressing through to South America. After my university degrees I traveled 6 months in Australasia and 6 months in Asia. Whilst in Asia I volunteered at handicapped children's orphanage just outside of Medan, Sumatra in Indonesia called Abdi Kassih which I found personally rewarding. Before my travelling I completed two degrees in Music production achieving a Bachelor of Arts with Honors (BaHons) and Foundation Degree with merit (FD) at Leeds College of Music. Whilst my degrees are in studio based work I have worked events ranging from festivals to corporate events. I have a vast knowledge of speaker design, implementation, FOH and Monitor mixing, analogue and digital consoles. I have a working knowledge of rigging completing a course by UK rigging, as well as high knowledge of lighting, video and data systems. I have a keen interest in many other things, I currently own a Caterham 7 which I am in the process to change to a track based racing car and plan to race in the forthcoming series.

## *Experience*

---

### **DELTA SOUND/SOUND BY DESIGN**      *March 2016 - August 2016 (London)*

Working as a project engineer and project manager. This involved design, implementation and operation of complex audio, visual and lighting systems. As well as dealing with all management issues of risk assessments, client meetings and invoicing. This role was not only office based but I was the lead engineer on site and first point of call for the client.

### **ECLIPSE PRESENTATIONS**      *SEPTEMBER 2012 - NOVEMBER 2013 JUNE 2014 - February 2016 (London)*

Working as a corporate events technician and operator. This involved rigging and operating varying technical systems spanning audio, lighting and video ranging from simple systems to complex set ups. The role including personal management of time with multiple jobs per day to be completed by a set time.

### **PRODIVE MEXICO**      *NOVEMBER 2013 - JANUARY 2014 (Mexico)*

Working as a SCUBA diving instructor teaching beginners to professional divers with a multitude of specialty ratings, including teaching First aid, CPR and O2 provider courses. This job has given me an invaluable skillset which is transferable to many areas due to the need to be sociable and alert for any problems that may occur before and whilst in the water, with a mind for quick problem solving.

### **BYRON BAY DIVE CENTRE**      *NOVEMBER 2011 - MARCH 2012 (Australia)*

Working as a Divemaster assisting in the teaching of recreational Scuba diving. This job not only involved teaching and diving but maintenance of equipment, filling of high pressure tanks, setting up and running of the boats.

### **LUU EVENTS TECHNICIAN**      *SEPTEMBER 2010 - SEPTEMBER 2011 (Leeds University)*

Working as FOH and monitor engineer on numerous gigs and festivals; Damnation, Constellations, Swans, Easy Star All Stars, Cas Haley and James Blackshaw. Crewing events for the likes of Wax:On, Pendulum, Chase and Status and Gogol Bordello. This also involves setting up regular live events and DJ nights, maintenance and upkeep of all equipment both sound and lighting.

### **RILEY SMITH THEATRE**      *SEPTEMBER 2009 - SEPTEMBER 2011 (Leeds University)*

This involved running and specifying sound systems for shows ranging from dance shows to world music to musicals; Grease, Footloose, Dance Expose. This also included rigging various structures from the grids and calculating loads.
