Show note: Jimmy Sampson is a 34 year old with autism. Jimmy's parents were both murdered during a home invasion 2 years earlier.

[SMITH] – LEAD

Lead Prosecutor for the city of Anchor Bay. Handled the Sampson murder case 2 years prior and created a bond with Jimmy during that time. Was later court-awarded co-guardianship of Jimmy. Under extreme pressure to deliver a trial brief before the end of the week deadline for the Thompson murder case.

[BROTHER TIM] – GUEST STAR

Jimmy's only sibling. Has battled legal trouble and sobriety for years. Just completed 90 days at a drug rehab facility in San Francisco and was released to help care for Jimmy. Seems to be moving in the right direction, but old habits never die, especially those dealing with his violent past.
