

# MY HUMANE HABITAT

*I will constantly strive to ensure that this area has natural food sources, water sources, and cover.*

*I will use sustainable practices to help the long-term health of my Humane Habitat.*

*Lastly, I will happily educate, and share my experiences with others!*

## Humane Habitat Happening

Please join us to listen to CORNELL MASTER GARDENER, Lyn Chimera, who is very knowledgeable about native plants and humane methods of pest control.

It's not too early to start thinking about your outdoor spaces, be them big or small, and how you can make them more hospitable for wildlife.
