

ARACHNID  
GRAPHICS

# PRODUCT CATALOGUE

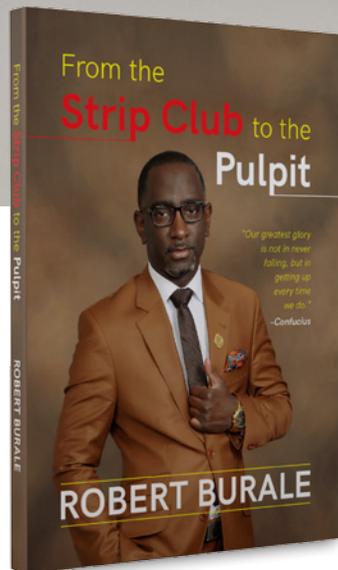

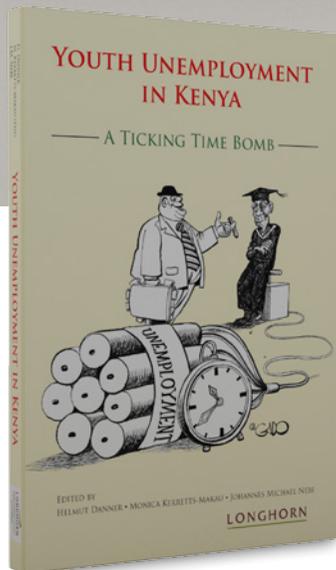

**ARACHNID**  
**GRAPHICS**

**A**rachnid Graphics was founded in 2014 and is located in Nairobi, Kenya. We create 3D models for film production, architecture, interior design and manufacturing.

We also provide services in general graphic design such as motion graphics, office stationery, publicity materials, package design, publications design and corporate identities (logos).

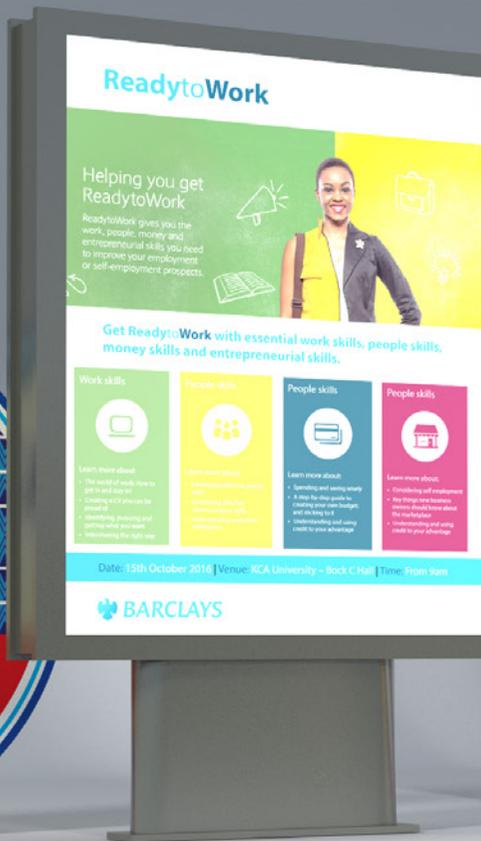

We believe that building strong client relationships is incredibly important and we work closely with our clients to foster complete trust. We aim to make our designs in all forms as clear and easy to understand as possible.

## PUBLICATIONS DESIGN

We develop innovative solutions to your publication design needs; from concept to delivery.

These include, but not limited to, Business Profiles, Text Books, Catalogues, Reports, Novels, eBooks and/or Journals.

## PUBLICITY MATERIALS

Marketing is a crucial part of any business. For that reason, we ensure to create relevant and eye-catching marketing collateral for our clients.

2

We design posters, fliers, buntings, banners, wobblers, TV commercials and branding.

## LOGODESIGN

---

We design professional logos that suit your brand needs.

We offer 4 alternative designs and make revisions on your chosen design to your satisfaction.

## FLOORPLANS

4

Are you having trouble interpreting your floor plan or do you need to better see the room sizes in relation to each other?

We will visualize your 2D floor plan making it easy for you to make adjustments before breaking ground.

Unlike interior renders, floor plan renders give you an opportunity to see the whole space from a bird's view.

We can also produce a video version of the same making it easier for you to explore the different angles using any video playing application.

## INTERIORRENDERS

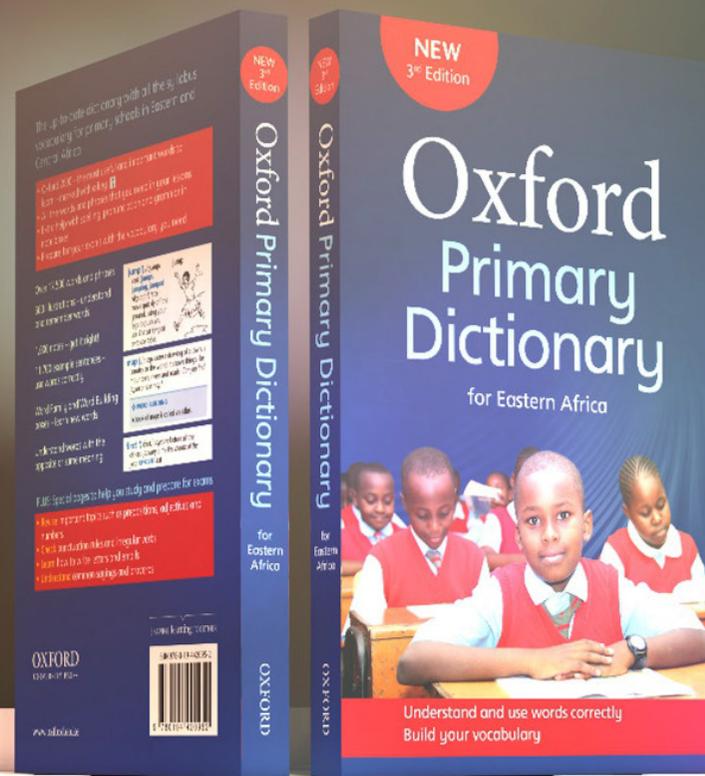

---

Do you need help planning your space?

It could be an exhibition, home, office or business space.

We provide virtual plans and explore executable ideas to help you come up with exactly what you need before committing resources to actualizing them.

You can also use the 3D renders as a marketing tool when you are targeting potential buyers. This helps the buyers have an idea of what they are investing in before the actual project is complete.

## MOTION GRAPHICS

6

We create high quality videos; edited and mixed with animated elements and special effects to create engaging and visually exciting footage.

We also create motion graphics for broadcast TV, Social Media and for playback in your business reception areas.

We have the largest library of animated flags of all territories of the world in our You Tube Channel. We offer these to the world community to use non-commercially. However, we also have the option of purchasing the commercial license at an affordable rate.

## PRODUCT RENDERS

We save you time by modeling 3D versions of your products. Since product photography takes time and resources to set up our 3D renders are cleaner and offer flexibility in terms of product view angles.

## OFFICESTATIONERY

We design business cards, letterheads, certificates and all other office documents you require for your business.
